Arius Heresy And Tradition:

Arius Rowan Williams, 2001 Arianism has been called the archetypal Christian heresy a denial of the divine status of Christ In his examination now augmented by new material Rowan Williams argues that Arius himself was a dedicated theological conservative whose concern was to defend the free and personal character of the Christian God His heresy grew out of the attempt to unite traditional biblical language with radical philosophical ideas and techniques and was from the start involved with issues of authority in the church Thus the crisis of the early 4th century was not only about the doctrine of God but also about the relations between emperors bishops and ascetical charismatic teachers in the church s decision making Williams raises the wider questions of how heresy is defined and how certain kinds of traditionalism transform themselves into heresy With a fresh conclusion in which the author reflects on how his views have changed or remained the same and a new introduction this book is suitable reading for students of patristics doctrine and church history Arius R. The Gospel according to Heretics David E. Wilhite, 2015-10-13 Since what Christian doctrine denies can be as important as what it affirms it is important to understand teachings about Jesus that the early church rejected Historians now acknowledge that proponents of alternative teachings were not so much malicious malcontents as they were misguided or even misunderstood Here a recognized expert in early Christian theology teaches orthodox Christology by explaining the false starts heresies making the history of theology relevant for today s church This engaging introduction to the christological heresies is suitable for beginning students In addition pastors and laypeople will find it useful for apologetic purposes

Islam, Christianity and Tradition Ian Richard Netton, 2006-12-22 Offers a unique comparative exploration of the role of tradition in Islam and Christianity The idea of tradition has enjoyed a variety of senses and definitions in Islam and Christianity but both have cleaved at certain times to a supposedly golden age of tradition from the past The author suggests there has been a chain of thinkers from classical Islam to the twentieth century who share a common interest in ijihad or independent thinking Drawing on past and present evidence and using Christian tradition as a focus for contrast and comparison the author highlights the seemingly paradoxical harmony between tradition and itjihad in Islam The author draws on a variety of primary and secondary sources including contemporary newspaper and journal
