**Secrets—From—The Garden of Eden and Noah’S Ark Revealed** Marian Cebryk,2017-09-06 Creation is not a single event in time but a process continual into infinity The Garden of Eden is part of this process And as part of this process it is dispersed and deviated into every region of mans world and does not exist any longer as a single entity Gods garden on earth is deviated into every region in the world It is not in one location Now each garden has within its own power of creation accordingly met mankinds needs of the region In different regions are different plants yet the same results affect needs and cures Hence the miracle of the Garden of Eden continues to exist wherever mankind chooses to live Thus the garden will follow mankind wherever he chooses to live in the universe if it meets his perceived basic needs air oxygen potable water and food
