- Репликативни хеликази** – ензими, които разкъсват водородните връзки между комплементарните бази и така осигурява едодверижна матрица за ДНК синтеза при процеса репликация
- Репликация на ДНК** – биосинтез на ДНК върху матрица ДНК
- Репликация тип „око“ (тип „q“ или Q репликация)** – начин на репликация на линейни и кръгови ДНК молекули

Peter Jordan, Marek Zvelebil

Arkheologicheski Sbornik:

The Region of the Upper Msta River in the Early Middle Ages Inna Islanova, 2021-02-01 This is a book about the archaeological sites of the 5th to 8th century of the Volga Baltic watershed in the forest zone of Eastern Europe The region has long been known for burial assemblages of the so called culture of the Pskov long barrows but the book brings to light a different group of sites The population living on those sites co existed with those who buried their dead under the Pskov long barrows but within a different landscape This polarity suggests that the local population was behind the culture of Pskov long barrows while the new category of site point to immigrants from the southwest The book suggests that the new archaeological sites were inhabited by a Slavic speaking population from the periphery of the Kiev and Kolochin cultures

Reimagining Europe Christian Raffensperger, 2012-03-12 An overriding assumption has long directed scholarship in both European and Slavic history that Kievan Rus in the tenth through twelfth centuries was part of a Byzantine commonwealth separate from Europe Christian Raffensperger refutes this conception and offers a new frame for two hundred years of history one in which Rus is understood as part of medieval Europe and East is not so neatly divided from West With the aid of Latin sources the author brings to light the considerable political religious marital and economic ties among European kingdoms including Rus restoring a historical record rendered blank by Russian monastic chroniclers as well as modern scholars ideologically motivated to build barriers between East and West Further Raffensperger revises the concept of a Byzantine commonwealth that stood in opposition to Europe and under which Rus was subsumed toward that of a Byzantine Ideal esteemed and emulated by all the states of Europe In this new context appropriation of Byzantine customs law coinage art and architecture in both Rus and Europe can be understood as an attempt to gain legitimacy and prestige by association with the surviving remnant of the Roman Empire Reimagining Europe initiates an expansion of history that is sure to challenge ideas of Russian exceptionalism and influence the course of European medieval studies Catalog of the Tozzer

Other Europe in the Middle Ages Florin Curta, Roman Kovalev, 2008 Drawing on archaeological and narrative sources this collection of studies offers a fresh look at some of the most interesting aspects of the current research on the medieval nomads of Eastern Europe

Ceramics Before Farming Peter Jordan, Marek Zvelebil, 2016-06-03 A long overdue advancement in ceramic studies this volume sheds new light on the adoption and dispersal of pottery by non agricultural societies of prehistoric Eurasia Major contributions from Western Europe Eastern Europe and Asia make this a truly international work that brings together different theories and material for the first time Researchers and scholars studying the origins and dispersal of pottery the prehistoric peoples of Eurasia and flow of ancient technologies will all benefit from this book

The Golden Deer of Eurasia Metropolitan Museum of Art (New York, N.Y.), 2000 Spectacular works of art were excavated between 1986 and 1990 from burial mounds at Filippovka in Russia on the border of Europe and Asia The

objects were created from about the fifth to the fourth century B C by pastoral people who lived on the steppes near the southern Ural Mountains The large funerary deposits include wooden deerlike creatures with predatory mouths and elongated snouts and ears overlaid with sheets of gold and silver as well as gold attachments for wooden vessels and gold and silver luxury wares imported from Achaemenid Iran These treasures are now in the collection of the Archaeological Museum Ufa in the Russian republic of Bashkortostan The discoveries at Filippovka open a new chapter in the history of the material culture of the nomads who in the first millennium B C traversed the steppe corridor extending from the Black Sea region to China Yet the information provided by the Filippovka excavations is complicated and ambiguous The identity of the people represented by the finds remains uncertain but the forms and ornamentation of many works from Filippovka as well as the cemetery s location in the southern Urals argue for the cultural chronological designation of this material as Early Sarmatian Stylistic features however point also to the arts of Siberia Central Asia and China in the east and to the art of the Meotian Scythians in the west Imported Achaemenid goods raise questions about their place of production and about the circumstances that brought them to be included in tombs on the southern Ural steppes Finally robbers penetrated the burials in antiquity destroying much of the evidence necessary for understanding the Filippovka nomads religious and funerary practices These are among the issues addressed in this volume the catalogue for an exhibition at The Metropolitan Museum of Art that brings together the remarkable new material from Filippovka and from the incomparably rich collections of the State Hermitage Saint Petersburg related luxury objects found in graves of other Eurasian steppe tribes Gold and silver objects from the Scythian Black Sea tombs textiles and leather and wooden works from the Altai Mountains and gold and bronze pieces from the Caucasus Central Asia and Siberia illustrate developments in the art of the steppes in the centuries preceding the Filippovka burials in contemporary societies and in later centuries toward the turn of the first millennium B C These outstanding works not only place the Filippovka discoveries in their proper historical and cultural context but are themselves fascinating and enigmatic
