Armed Struggle And The Search For State:

Armed Struggle and the Search for State Yezid Sayigh, 1997-12-11 This masterly new work spans an entire epoch in the history of the contemporary Palestinian national movement from the establishment of Israel in mandate Palestine in 1948 to the PLO Israel accord of 1993. Contrary to the conventional view that national liberation movements proceed with state building only after attaining independence the case of the PLO shows that state building may shape political institutionalization throughout the previous struggle even in the absence of an autonomous territorial economic and social base. That is the central argument of this insightful study which traces the political ideological and organizational evolution of the PLO and its constituent guerrilla groups. Taking the much vaunted armed struggle as its connecting theme it shows how conflict was used to mobilize the mass constituency assert particular discourses of revolution and nationalism construct statist institutions and establish the legitimacy of a new political class and bureaucratic elite. The book draws extensively on PLO archives official publications and internal documents of the various guerilla groups and over 400 interviews conducted by the author with the PLO rank and file. Its span primary sources and conceptual framework make this the definitive work on the subject. Yazid Şayigh, 1997 **Homelands** Nadav G. Shelef, 2020-07-15 Why are some territorial partitions accepted as the appropriate borders of a nation's homeland whereas in other places conflict continues despite or even because of division of territory? In *Homelands* Nadav G. Shelef develops a theory of what homelands are that acknowledges both their importance in domestic and international politics and their change over time. These changes he argues driven by domestic political competition and help explain the variation in whether partitions resolve conflict. *Homelands* also provides systematic comparable data about the homeland status of lost territory over time that allow it to bridge the persistent gap between constructivist theories of nationalism and positivist empirical analyses of international relations. *Jihād* R.

Bonney, 2004-11-19 Holy war ideas appear among Muslims during the earliest manifestations of the religion. This book locates the origin of Jihad and traces its evolution as an idea with the intellectual history of the concept of Jihad in Islam as well as how it has been misapplied by modern Islamic terrorists and suicide bombers. **Israel's Foreign Policy Towards the**

PLO Amnon Aran, 2009 This detailed examination of Israeli foreign policy towards the Palestinian Liberation Organization (PLO) between the 1967 war and the 2005 withdrawal from the Gaza Strip focuses on the impact and process of globalisation on the Israeli state's politics economy society and culture. In order to determine how interfacing developed between foreign policy and globalisation a theoretical framework is presented that brings together two established approaches that hitherto have advanced in parallel: foreign policy analysis and globalisation theory. This is the first attempt within the discipline of International Relations to theorise the relationships between foreign policy and globalisation. Causal relationships underpinning Israeli foreign policy involving government the state the economy social stratification and the media are linked

to globalisation by specific example Conventional accounts of this relationship strip military and political factors of any significance in terms of the conceptualisation of globalisation and its causes in favour of spatio temporal and economic dimensions The state is viewed as being compelled to transform in response to the pressures of globalisation But in the case of Israel the state acted proactively by using foreign policy towards the PLO as a key site of action to capture the opportunities and cope with the challenges presented by globalisation To date there have been only partial historical accounts of Israeli foreign policy towards the PLO in the context of globalisation It is generally understood that foreign policy towards the PLO became entangled with globalisation due to the socio economic and cultural globalisation of Israel in the mid 1980s but this study shows that the increasing impact of military and political globalisation during the Cold War on the Arab Israeli conflict resulted in Israeli foreign policy towards the PLO and globalisation effects in Israel becoming entwined from the early 1970s

The One State Reality Michael Barnett, Nathan J. Brown, Marc Lynch, Shibley Telhami, 2023-03-15

The One State Reality argues that a one state reality already predominates in the territories controlled by the state of Israel The editors show that starting with the one state reality rather than hoping for a two state solution reshapes how we regard the conflict what we consider acceptable and unacceptable solutions and how we discuss difficult normative questions The One State Reality forces a reconsideration of foundational concepts such as state sovereignty and nation encourages different readings of history shifts conversation about solutions from two states to alternatives that borrow from other political contexts and provides context for confronting uncomfortable questions such as whether Israel Palestine is an apartheid state

The Only Language They Understand Nathan Thrall, 2017-05-16

In a myth busting analysis of the world s most intractable conflict a star of Middle East reporting argues that only one weapon has yielded progress confrontation Scattered over the territory between the Jordan River and the Mediterranean Sea lie the remnants of failed peace proposals international summits secret negotiations UN resolutions and state building efforts The conventional story is that these well meaning attempts at peacemaking were repeatedly thwarted by the use of violence Through a rich interweaving of reportage historical narrative and forceful analysis Nathan Thrall presents a startling counter history He shows that Israelis and Palestinians have persistently been marching toward partition but not through the high politics of diplomacy or the incremental building of a Palestinian state In fact negotiation collaboration and state building the prescription of successive American administrations have paradoxically entrenched the conflict in multiple ways They have created the illusion that a solution is at hand lessened Israel s incentives to end its control over the West Bank and Gaza and undermined Palestinian unity Ultimately it is those who have embraced confrontation through boycotts lawsuits resolutions imposed by outside powers protests civil disobedience and even violence who have brought about the most significant change Published as Israel s occupation of East Jerusalem the West Bank and Gaza reaches its fiftieth year which is also the centenary of the Balfour Declaration that first promised a Jewish national

The Government And Politics Of The Middle East And North Africa, Fourth Edition David Long,Bernard Reich,2002-04-08 Rapid social economic and political change is endemic to the Middle East and is often more revolutionary than evolutionary in nature In many ways the entire political landscape of the Middle East has been transformed in the past decade in the realm of both international relations and domestic politics The collapse of the Soviet Union the end of the cold war and the Iraqi invasion of Kuwait have all had a profound effect on relations among states within the region and between those states and countries outside the region In this revised edition Long and Reich provide comprehensive and up to date analyses of many critical contemporary events and issues The contributors explain how Desert Storm isolated Iraq and brought Syria back into the mainstream of Arab politics contributing to the revival of the Arab Israeli peace process They also show how the return of a Labor government in Israel has allowed the peace process to go forward Evaluating the economic costs of the Kuwait war and the continuing oil glut the authors find that resulting changes in the domestic economies of the oil producing states have created additional pressures for social and political change The most profound change in government and politics however is the rise of Islam as the idiom of political discourse among moderates as well as extremists

Encyclopedia of the Modern Middle East & North Africa: Laabi-Shamlu Philip Mattar,2004 Talking with the Enemy Daniel Lieberfeld,1999-08-30 The decisions to negotiate in the South African and Israeli Palestinian conflicts can be understood in terms of changed perceptions of threat among political elites and their constituents As perceptions of an imminent threat to national survival receded debate over national security policy became a focus of internal politics on the government sides in each case and prompted changes of leadership The new leaders F W de Klerk and Yitzhak Rabin faced emerging threats at the national and international levels that made negotiation seem advantageous Lieberfeld analyzes the decisions of the opposition ANC and PLO in terms of changing threat perceptions and incentives for compromise Lieberfeld also evaluates developments since the breakthrough agreements He concludes by identifying revised indicators of conflicts ripeness for negotiated settlement and discussing their applicability to other cases of intense protracted conflict
