The Armenian Genocide Richard G. Hovannisian, 2014-01-14 Beneath the shadow of the First World War the Young Turk government orchestrated the massacre of over one million Armenians in Turkey between the years 1915 and 1918 Virtually erased from public memory and forgotten out of political convenience this attempt to destroy the Armenian population is a prototypical example of genocide which has been repeated throughout the twentieth century The Armenian Genocide explains the historical cultural and political conditions which led to this tragedy and to the subsequent claims that it never actually took place

The Armenian Genocide Richard G. Hovannisian, 2011-12-31 World War I was a watershed a defining moment in Armenian history Its effects were unprecedented in that it resulted in what no other war invasion or occupation had achieved in three thousand years of identifiable Armenian existence This calamity was the physical elimination of the Armenian people and most of the evidence of their ever having lived on the great Armenian Plateau to which the perpetrator side soon gave the new name of Eastern Anatolia The bearers of an impressive martial and cultural history the Armenians had also known repeated trials and tribulations waves of massacre captivity and exile but even in the darkest of times there had always been enough remaining to revive rebuild and go forward This third volume in a series edited by Richard Hovannisian the dean of Armenian historians provides a unique fusion of the history philosophy literature

art music and educational aspects of the Armenian experience It further provides a rich storehouse of information on comparative dimensions of the Armenian genocide in relation to the Assyrian Greek and Jewish situations and beyond that paradoxes in American and French policy responses to the Armenian genocides The volume concludes with a trio of essays concerning fundamental questions of historiography and politics that either make possible or can inhibit reconciliation of ancient truths and righting ancient wrongs

Genocide Perspectives IV Colin Tatz, 2012-01-01 Genocide isn't past tense and the Nazi and Bosnian eras are not yet closed. The demonising of people as unworthy and expendable is ever present and the consequences are all too evident in the daily news. These fourteen essays by Australian scholars confront the issues: the need for a measuring scale that encompasses differences and similarities between seemingly divergent cases of the crime; the complicity of bureaucracies, the healing professions and the churches in this crime of crimes; the quest for historical justice for genocide victims generally following the Nuremberg Trials; the fate of children in the Nazi and postwar eras; the worthiness of Armenians, Jews and Romani people in twentieth century Europe; and the imperative to tackle early warning signs of an incipient genocide. Colin Tatz is a founding director of the Australian Institute for Holocaust and Genocide Studies, visiting fellow in Politics and International Relations at the Australian National University, and honorary visiting fellow at the Australian Institute of Aboriginal and Torres Strait Islander Studies. He teaches and publishes in comparative race politics, youth suicide, migration studies and sports history.

Genocide Perspectives VI Nikki Marczak, Kirril Shields, 2020-12-21 *Genocide Perspectives VI* grapples with two core themes: the personal toll of genocide and processes that facilitate the crime. From political choices governments and leaders make through to denialism and impunity, the crime of genocide recurs again and again across the globe. At what cost to individuals and communities? What might the legacy of this criminality be? This collection of essays examines the personal sacrifice genocide takes from those who live through the trauma and the generations that follow. Contributors speak to the way visual art and literature attempt to represent genocide, hoping to make sense of problematic histories while also offering a means of reflection after years of slow violence or silenced memories. Some authors generously allow us into their own histories or contemplate how they may have experienced genocide had they been born in another time or place. What facets contribute to the processes that lead to or enable the crime of genocide? This collection explores those processes through a variety of case studies and lenses. How do nurses whose role is inherently linked to care and compassion become mass killers? How do restrictions on religious freedom play a role in advancing genocidal policies and why do perpetrators of genocide often target religious leaders? Why is it so important for Australia and other nations with histories of colonial genocide to acknowledge their past? Among the essays published in this volume, we have the privilege and the sorrow of publishing the very last essay Professor Colin Tatz wrote before his passing in 2019. His contribution reveals yet again the enormous influence of both his research and his original ideas on genocide. He reflects on continuing legacies for Indigenous Australian communities with whom he worked for many decades and adds nuance to contemporary understanding of the Armenian Genocide and the Holocaust, two other cases to which he was deeply committed.
