Armenian People Ancient Mod Vol 2:

Monasticism in Eastern Europe and the Former Soviet Republics Ines Angeli Murzaku, 2015-08-27 This book looks at Eastern and Western monasticism's continuous and intensive interactions with society in Eastern Europe, Russia, and the Former Soviet Republics. It discusses the role monastics played in fostering national identities as well as the potentiality of monasteries and religious orders to be vehicles of ecumenism and inter-religious dialogue within and beyond national boundaries. Using a country-specific analysis, the book highlights the monastic tradition and monastic establishments. It addresses gaps in the academic study of religion in Eastern European and Russian historiography and looks at the role of monasticism as a cultural and national identity-forming determinant in the region. **The Armenian Rebellion at Van**

Justin McCarthy, 2006-09-29 Presents a long overdue examination of the actions at Van, an ancient city in southeastern Anatolia where the Armenian Revolt is believed to have been a precursor to a great massacre of the people of the East.

Conflict and Cooperation in the South Caucasus Region Houman A. Sadri, 2023-12-19 Conflict and Cooperation in the South Caucasus Region: From Theory to Policy combines IR theory and policy in a readable format. Houman A. Sadri discusses the distinctive challenges of the South Caucasus region and offers a survey of relevant IR theories. Armenia, Azerbaijan, and Georgia are covered in depth since independence. These former Soviet republics have experienced major conflicts and cooperation since independence in the early 1990s. The 2008 Russian invasion of Georgia and the Armenian-Azeri Wars captured headlines and affected markets, but the completion of energy pipelines exposed the complexity of cooperation in connecting the regional and global political economy. Conflict and Cooperation in the South Caucasus Region has three major purposes: 1) To provide a survey of the major developments of the Caucasus States; 2) To analyze the application of IR prominent theories; and 3) To offer practical policy options for policymakers seeking to understand the South Caucasus region. What does the remainder of the 21st Century hold for Armenia, Azerbaijan, and Georgian? Where are the main sources of threats? How can these threats be effectively dealt with? **Genocidal Conscription** Christopher

Harrison, 2023-07-03 Genocidal Conscription examines how some states have employed mandatory military service as a tool to capture and kill the victims of genocide by recruiting the perpetrators from other minorities and shifting blame away from the state. The book highlights several unique intersections that connect military history, Holocaust studies, and genocide. The study details an original framework that encompasses intentions and outcomes of wartime casualties, Clausewitzian wastage, and genocidal massacres. Christopher Harrison traces and compares how two genocidal regimes at war—the Ottoman Empire during World War One and Axis-era Hungary in World War Two—implemented certain policies of military service to capture and destroy their targets amidst the carnage of modern warfare. Following this historical comparative study, the author then summarizes relevant implications and ongoing concerns. The conclusion includes insights into conscription by contemporary authoritarian regimes. By examining these histories and crises, the book suggests that several states are at risk of carrying out

genocidal conscription today While difficult and unlikely due to political disincentives the implication of this analysis considers reforms which may prevent states from repeating similar policies and actions again
