Michael Friedman

Armenoids In Prehistory:

Armenoids in Prehistory Boris Moisheson,2001-05-25 Armenoids in Prehistory attempts to reconstruct the oldest periods of the prehistory of the Ancient Near East and the neighboring areas by combining recent discoveries in several fields including anthropological evidence calibrated radiocarbon dating comparative study of epic and linguistic data and the recent theory of Indo European languages The analysis and the reconstruction of the past which Moisheson suggests helps to show that the development of the modern science of prehistory does not destroy the Biblical heritage *Ramified Surfaces* Michael Friedman,2022-09-26 The book offers an extensive study on the convoluted history of the research of algebraic surfaces focusing for the first time on one of its characterizing curves the branch curve Starting with separate beginnings during the 19th century with descriptive geometry as well as knot theory the book focuses on the 20th century covering the rise of the Italian school of algebraic geometry between the 1900s till the 1930s with Federigo Enriques Oscar Zariski and Beniamino Segre among others the decline of its classical approach during the 1940s and the 1950s with Oscar Chisini and his students and the emergence of new approaches with Boris Moishezon s program of braid monodromy factorization By focusing on how the research on one specific curve changed during the 20th century the author provides insights concerning the dynamics of epistemic objects and configurations of mathematical research It is in this sense that the book offers to take the branch curve as a cross section through the history of algebraic geometry of the 20th century considering this curve as an intersection of several research approaches and methods Researchers in the history of science and of mathematics as well as mathematicians will certainly find this book interesting and appealing contributing to the growing research on the history of algebraic geometry and its changing images [The Cambridge Ancient History: Egypt and Babylonia to 1580 B.C](#) John Bagnell Bury,Stanley Arthur Cook,Frank E.
