Army Air Forces In World War II Combat:

The Army Air Forces in World War II, 1948 **Combat Chronology, 1941-1945** Kit C. Carter, Robert Mueller, 1975
Air Force Combat Units of World War II Maurer Maurer, 1961 **Air superiority in World War II and Korea...** United States. Air Force. Office of Air Force History, 1983 **The Army Air Forces in World War II**, 1973 The U.S. Army Air Forces in World War II James Nanney, 1998 United States Army Air Forces in World War 2 Summarizes the Army Air Forces AAF medical achievements that led to the creation of the Air Force Medical Service in July 1949 **With Courage** Bernard C. Nalty, John F. Shiner, George M. Watson, 1994 In the last decade of the twentieth century today's United States Air Force marks the fiftieth anniversary of its part in a national effort that opposed a coalition of enemies in a global war American and allied air forces in the conflict for the first time achieved striking range and effectiveness making air power a force equal to that of traditional armies and navies The Center for Air Force History has prepared this narrative to commemorate the accomplishments of American air power in World War II and present to the American people a record of valor in the name of freedom Partial contents include A Weapon and an Idea Europe in Flames In Desperate Battle Building Air Power Defeating Italy and Germany Victory Over Japan A New Age Theater Maps Air Forces Lineages *The Army Air Forces in World War II, Volume Six: Men and Planes*, *U. S. Army Air Forces in World War II: Combat Chronology 1941 - 1945 - Comprehensive Information on American Air Power in the Second World War* Department of Defense, U. S. Military, U. S. Air Force, Center for Air Force History, 2017-04-16 This authoritative chronology is concerned primarily with operations of the US Army Air Forces and its combat units between December 7 1941 and September 15 1945 during World War II The research was a cooperative endeavor carried out in the United States Air Force historical archives by the Research Branch of the Albert F Simpson Historical Research Center Such an effort has demanded certain changes in established historical methodology as well as some arbitrary rules for presentation of the results After International and US events entries are arranged geographically They begin with events at Army Air Forces Headquarters in Washington then proceed eastward around the world using the location of the headquarters of the numbered air forces as the basis for placement For this reason entries concerning the Ninth Air Force while operating in the Middle East follow Twelfth Air Force When that headquarters moves to England in October 1943 the entries are shifted to follow Eighth Air Force The entries end with those numbered air forces which remained in the Zone of the Interior as well as units originally activated in the ZI then designated for later movement overseas such as Ninth and Tenth Air Forces The ZI entries do not include Eighth and Twentieth Air Forces which were established in the ZI with the original intent of placing them in those geographical locations with which they became historically identified For these two units original actions are shown either under AAF or in their intended geographic area of location All times and dates used are those of the area under discussion The entry 1 2 Jun indicates that an event occurred during the night between the two given dates while 1 2 Jun indicates an action over a period of time In dealing with people

again arbitrary decisions were implemented For military men below the general officer or equivalent level full grade and name were used For general officers and those of equal grade in other US and foreign services only an abbreviated rank e g Gen or Adm and last name are used in the text The exception is where two general officers had the same last name in such cases the first name is also included Similarly for civilian leaders only the last name is used In all cases attempts were made to cite place names in use by the native population at the time of or immediately before the war No names imposed by a conqueror are used For example Pylos Bay not Navarino Bay is used Further as appropriate native geographic terms are used Shima for island in Japanese island groups See for lake in Germany However two exceptions were made In cases in which the place became infamous because of the actions of the conquering power that name is preferred for example Auschwitz would be used rather than the Polish name of Oswiecim Also in larger international cities such as Roma Koln and Wien the anglicized name is used In some cases with no extant navigational aids of the attacking force the best possible guess was made based upon all available evidence In other instances such as the bridge at Hay ti attacked so often by Tenth Air Force a logical guess could not be made Accent marks such as umlauts were omitted
