**Necrodialogues and Media** Elena Fabietti,Zoë Ghyselinck,2026-02-13 This volume is an original contribution to the understanding of the various forms of communication with the dead. Taming them necrodialogues it examines these forms of communication in relation to cultural and ritual practices of necromancy and mediumism on the one hand and to the development of technologies for establishing contact with the beyond on the other. While recent scholarship in media and cultural studies rejects the narrative that technological progress in modernity eclipsed religious experiences and occult practices, twentieth and twenty-first century literary studies holding on to the secularization paradigm still largely dismiss practices of communication with the dead as anti-modern. By bringing together perspectives from different disciplines, this volume emphasizes the interconnectedness of literary necrodialogues and other cultural and media practices of communicating with the dead. The main aim of the collection is to explore the cultural, historical, anthropological, and media contexts in which modern necrodialogues are produced and invested with different meanings.

**Framing a Novelist** Robert Weninger,1995 Weninger's book is the only study in either English or German to comprehensively chart the field of Schmidt criticism as it has evolved since 1970. Focusing on the ways scholars and critics have attempted to frame their subject, the author provides a thematic outline of Schmidt criticism and its interpretive rationale, as well as critical analyses of the scholarship on selected works. Written with a keen awareness of the state of literary theory today, this book addresses hermeneutic concerns that reach far beyond the realm of German literary history. It will be of interest to students and scholars of German literature, comparative literature, and literary theory.

*Contemporary German Fiction Writers* Wolfgang Elfe,James N. Hardin,1988 Essays on West German, East German, and Swiss German authors who experienced Nazi rule and World War II as adults. Entries examine these writers coming to terms with the experience of fascism and how they were often the conscience of a society that was inclined to forget its recent past. The lives and works of these writers provide an insight not only into German literature but also into several decades of German history.
