Aromatic And Heteroaromatic Chemistry Volume 6:

Aromatic and Heteroaromatic Chemistry H Suschitzky, O Meth-Cohn, 2007-10-31 Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major areas of chemical research. Written by experts in their specialist fields, the series creates a unique service for the active research chemist, supplying regular, critical, in-depth accounts of progress in particular areas of chemistry. For over 80 years, the Royal Society of Chemistry and its predecessor, the Chemical Society, have been publishing reports charting developments in chemistry, which originally took the form of Annual Reports. However, by 1967, the whole spectrum of chemistry could no longer be contained within one volume, and the series Specialist Periodical Reports was born. The Annual Reports themselves still existed but were divided into two, and subsequently three volumes covering Inorganic, Organic, and Physical Chemistry. For more general coverage of the highlights in chemistry, they remain a must. Since that time, the SPR series has altered according to the fluctuating degree of activity in various fields of chemistry. Some titles have remained unchanged, while others have altered their emphasis along with their titles; some have been combined under a new name, whereas others have had to be discontinued. **Aromatic and Heteroaromatic Chemistry** H. Suschitzky, O. Meth-Cohn, 1978-12-31 Indispensable reference source for researchers in the pharmaceutical and allied industries and at the biology/chemistry interface in academia. **Aromatic and Heteroaromatic Chemistry Volume 3** Clive Wilfred Bird, 1975 Annotation Specialist Periodical Reports provide systematic and detailed review coverage of progress in the major areas of chemical research.
