*La idea construida* Alberto Campo Baeza, 2021-06-01 LA IDEA CONSTRUIDA recoge algunos de los más interesantes textos de Campo Baeza en los que el arquitecto intenta plasmar sus ideas acerca de la Arquitectura En Arquitectura de algún modo las claves las desvelan los arquitectos en sus planos y en sus textos Y as se agradecen los escuetos escritos de Mies Van der Rohe O los más apasionados y extensos de Le Corbusier y as quisiera que se entendieran estos textos que hoy aquí se publican juntos El decir con palabras capaces de explicar de manera clara cuáles son las intenciones es algo más que conveniente para el arquitecto Para saber que se está haciendo cosas con sentido La recopilación de textos a la que este escrito sirve de introducción no es más que precisamente esto Estas frases del autor en la introducción describen bien cuáles son sus intenciones en estos textos

[Unidentified Flying Object for Contemporary Architecture](#) Beatrice Lampariello, Andrea Anselmo, Boris Hamzeian, 2022-10-18 The first monographic publication focused on the Florentine UFO group 1968 1978 that conducts a historical analysis of its work reveals its close relationship with the contemporary artistic literary and architectural avant garde and finally investigates its legacy for the contemporary project The contemporary context is defined by a unique conjuncture On one hand we witness the revival of the Radical Architecture that from the avant garde experiments of the origins recovers creative processes and iconographic fragments while nullifying the original ideological and political values On the other hand we see social protests in defense of fundamental rights of democracy as in 1968 With these premises Architecture is now reinvestigating those ephemeral experiments that have endured half a century as new stone monuments capable of indicating new perspectives for both research and design Placing UFO group one of the authors of those still poorly known monuments at the core of the contemporary debate means investigating their formal and seductive aspects but also the ideological political and social values with which objects installations and happenings have been innervated transforming them into devices of an architecture nourished by literature art and political commitment for the foundation of an eloquent and activist project even more radical than the well known Superstudio and Archizoom The collaboration between Beatrice Lampariello an architecture historian specialized in the 1960s and 1970s and False Mirror Office a group of historians and designers engaged in the rediscovery of UFO group lead to a monograph focused on the UFO's work and an evaluation of their legacy relative to contemporary architecture This monograph is composed of three sections 1 History a first ever study of UFO by False Mirror Office via analysis of all archival and bibliographic sources as well as a series of interviews with UFO members and a collection of its writings published and unpublished for the first time translated into English 2 Context composed of essays by historians and architectural theorists Beatrice Lampariello Simon Sadler Anna Rosellini Giovanni Galli Jacopo Galimberti intended to place UFO's work in the

**Una relación conflictiva** Parga Marcos, 2023-06-09 El trabajo del colectivo florentino Superstudio en particular sus provocadoras perspectivas y collages han formado parte de la imaginación colectiva arquitectónica y artística de los últimos 60 años Sin embargo esta atractiva cualidad gráfica asociada a la representación ha ido relegando a un segundo plano la ambición intelectual de un proyecto tan rico y complejo a la vez que inusual minimizando su potencial impacto en procesos arquitectónicos más recientes Iniciada en 1966 con la exposición *Superarchitettura* la aventura del grupo lleva a sus miembros a especular durante más de una década sobre formas alternativas de habitar un mundo en constante transformación moldeado por ubicuas fuerzas capitalistas y sucesivas revoluciones tecnológicas Una relación conflictiva explora y documenta este retiro político esta desaparición minuciosamente programada y magistralmente escenificada que revela la relación conflictiva del grupo con una disciplina a la que dan por muerta un viaje conceptual que se aleja de la construcción para explorar un enfoque fundamentalmente intelectual que ahonda en las vicisitudes de lo cotidiano donde nuestra propia existencia se convierte en la imagen pública de la arquitectura verdaderamente moderna una arquitectura que será desprovista de edificios como paso previo y necesario para una eventual refundación Al presentar este proceso reduccionista como un acto político cuidadosamente articulado democrático y emancipador este libro subraya la naturaleza multiforme y heterogénea de Superstudio y analiza la relevancia de su última etapa en el desafío del statu quo de la disciplina para finalmente extraer lecciones críticas que nos ayudan a resituar el papel del arquitecto en la sociedad actual quizás su legado más radical
