## **Arrival And Settlement In A New Place:**

**Home Across Borders** Jagath Bandara Pathirage,2024-10-08 This book studies how transnational migrants create a sense of home in their host countries It draws on case studies of Sri Lankan migrants living in Australia to argue that home is an existential experience rather than a fixed entity The author looks at how the sense of home arises as a fresh category which is critical in defining one's existentiality in the host society Going beyond the conventional methodological approach of an ethnographer objectivizing others sense of home into fixed categories the book attempts to foreground the immigrant's articulation of home which evolves parallel to their being It reveals how three important aspects of our lives time space and memory intersect with the trajectories of migration The author also delves into the ways in which migrants engage in building a home as a way of creating materiality in their dwelling practice Unique and compelling the book will be highly useful in studies of diaspora globalisation and transnational migration It will be of interest to students researchers and scholars of anthropology migration and transnational studies as well as sociology and other related disciplines *Handbook on Home and Migration* Paolo Boccagni,2023-06-01 This dynamic Handbook unpacks the entanglements between the two notions of home and migration which illuminate the lived experiences of involuntary mobilities and the contested terrain of inclusion and belonging Drawing on cross disciplinary contributions from leading international scholars it advances research on the social study of home in relation to migration refugee displacement and diaspora studies This title contains one or more Open Access chapters
