Fisher, 1990-04-01 Bringing together twenty of the author's prefaces to books by other writers and fifteen to her own this volume collects a variety of observations on life art travel food and drink Dubious Honors Mary Frances Kennedy Fisher, 1988 Bringing together twenty of the author's prefaces to books by other writers and fifteen to her own this volume collects a variety of observations on life art travel food and drink **Dubious Honors** M. F. K. Fisher, 1990 Fashioning Authority Constance Caroline Relihan, 1994 Various factors in late 16th century England contributed to an environment more hospitable to prose fiction than had existed previously among them changes in educational opportunities socioeconomic structures literacy rates and access to European literature Such cultural alterations inevitably produced changes in modes of literary production Furthermore access to the bookstall to a new class of readers altered the structures and subjects writers employed Within this tumultuous context the writers of fictional prose narrative negotiated for themselves and their audience a precarious definition of their identity within the Elizabethan literary world In Fashioning Authority Constance C Relihan examines the influence of Elizabethan prose fiction on early modern literary culture emphasizing the role of the nonaristocratic reader in the reception of literature the importance of the marketplace in the production and reception of prose texts and the growth of prose as the dominant mode of narrative presentation Combining cultural analysis with a concern for narrative structure Relihan explores six strategies by which the writers and readers of Elizabethan fiction struggled to achieve artistic authority incorporating poetry into prose texts using translated material separating authorial from narrative voice introducing a sense of place depicting females and representing non-European cultures Relihan argues that Elizabethan fiction's unique position on the borders of literate and literary English culture that is its position as what M M Bakhtin calls novelistic discourse allows it to constitute a rich field for examining the ideological rifts of the period Taking her primary examples from Barnabe Riche's Farewell to Militarie Profession 1581 but also considering texts by a variety of authors such as Sidney Deloney Lyly Gascoigne Lodge Breton Greene Harmon Nashe and Painter Relihan demonstrates that regardless of their specific structural and thematic differences the various modes of Elizabethan fiction all share a common origin in the upheavals of English culture during the later half of the 16th century By examining novelistic discourse as a category Fashioning Authority strengthens our understanding of the nature and history of English fiction even as it broadens our sense of Elizabethan culture The result is an exploration of how Elizabethan novelistic discourse established the cultural place of its newly literate readers and its generically marginal authors creating literary comfort in narrative prose for those who failed to find it in verse **M.F.K. Fisher and Me** Jeannette Ferrary, 1998-08-15 In a heart warming story of author Jeannette Ferrary's relationship with the famous and charismatic M F K Fisher the author takes readers behind the persona of the woman who revolutionized the way American's think about food **The Enduring Seminoles** Patsy West, 2024-03-19 This engaging short work of anthropology and Florida Indian history deserves a wide

Fisher Ishmael Reed Ralph Ellison Langston Hughes and George S Schuyler should be read primarily as satires in order to avoid misinterpretation and to gain a greater understanding of their specific meanings and the eras in which they were written He also examines the satirical rhetoric and ideological bases of complex works such as John Oliver Killens s The Cotillion and Cecil Brown s The Life and Loves of Mr Jiveass Nigger books that are currently out of print and that have received only scant critical attention since they were first published Beginning with the tradition of folk humor that originated in West Africa and was forcibly transplanted to the Americas through chattel slavery Dickson Carr focuses in each chapter on a particular period of the twentieth century in which the African American satirical novel flourished He analyzes the historical contexts surrounding African American literature and culture within discrete crucial movements starting with the Harlem Renaissance of the 1920s and ending in the present He also demonstrates how the political cultural and literary ethos of each particular moment is manifested and contested in each text By examining these texts closely within their historical and ideological contexts Dickson Carr shows how African American satirical novels provide the reader of African American literature with a critique of popular ideologies seldom found in nonsatirical works Providing a better understanding of what satire is and why it is so important for fulfilling many of the goals of African American literature African American Satire will be an important addition to African American studies
