Ducks Geese And Swans:

Ducks, Geese, and Swans: Species accounts (Cairina to Mergus) Janet Kear,2005 **Ducks, Geese, and Swans**
Janet Kear,2005 Wildfowl and screamers belong to a highly diverse family of birds confined to watery habitats The Ducks, Geese and Swans of North America Francis H. Kortright,1942 **Wildfowl** Steve Madge,2010-09-30 A summary of information on 154 species of duck geese and swans of the world intended as an identification manual for the wildfowl enthusiast that goes beyond a regional basis and is light enough to be used as a handy reference book in the field The text not only clarifies identification techniques but fully discusses problematic plumages in detail as well as providing a summary on world distribution and status complemented by clear distribution maps *Ducks, Geese, and Swans of North America* Guy A. Baldassarre,2014 Ducks Geese and Swans of North America has been hailed as a classic since the first edition was published in 1942 A must have for professional biologists birders waterfowl hunters decoy collectors and wildlife managers this fully revised and updated edition provides definitive information on the continent s forty six species Maps of both winter and breeding ranges are presented with images by top waterfowl photographers and the acclaimed original artwork of Robert W Bob Hines Originally authored by F H Kortright and later revised by Frank Bellrose this latest edition which has been meticulously updated by renowned waterfowl biologist Guy Baldassarre continues the legacy of esteemed authors Each species account contains in depth sections on identification distribution migration behavior habitat population status breeding biology rearing of young recruitment and survival food habits and feeding ecology molts and plumages conservation and management To facilitate identification the species accounts also include detailed illustrations of wings An appendix contains comparative illustrations of ducklings goslings and cygnets Guy Baldassarre has hit the target His remake of the Kortright Bellrose classic provides good biological descriptions wonderful photographs and illustrations and easy to understand information about waterfowl I would encourage every hunter and enthusiast to have these books as an educational guide to waterfowl and their needs H Dale Hall CEO Ducks Unlimited Inc When as an eleven year old in 1942 I read F H Kortright s first edition of this book it altered the trajectory of my life Every subsequent edition including this latest update by Guy Baldassarre has improved the landmark reference I can t imagine that anyone interested in waterfowl or wetlands can live without this indispensable book Paul A Johnsgard University of Nebraska Lincoln Creating a brand new version of such a timeless and previously revised classic is a risky venture indeed but nobody could be better suited for this monumental task than Guy Baldassarre He has created a stunning new classic at once magnificent in its visual appeal and truly comprehensive in its scientific breadth and depth Hats off to Guy for dedicating himself to this project with such obvious passion patience and skill This book absolutely belongs on the shelf or coffee table of anyone who has ever marveled at waterfowl whether through their binoculars or from inside the duck blind John W Fitzpatrick Cornell Laboratory of Ornithology Guy Baldassarre was a professor of wildlife ecology at the State University of New York College of

Waterfowl of North America Paul A. Johnsgard, 1975 Compendium of data for all of the nearly sixty species of ducks geese and swans known to breed in North America For each species the distribution with range maps for all breeding species weights and measurements information on identification in the hand and in the field criteria for determining age and sex and North American subspecies are given Each species description also includes detailed accounts of preferred habitat food ecology migratory movements sociality age at maturity nest location clutch size incubation and fledging periods pairing and flocking behavior and copulatory nesting brooding and postbreeding behavior Dust jacket **Ducks, Geese, and Swans of the World** Paul A. Johnsgard, 1978 The primary purpose of this book is to provide information on each of the species of the waterfowl family in a standardized format and easily accessible manner *Discovering Ducks, Geese and Swans* Anthony Wharton, Jackie Harland, 1987 Discusses the habits and behavior of ducks geese and swans three birds who live feed and breed on or near the water **How to Know the Ducks, Geese and Swans of North America** Charles B Cory, 2019-06-03 From the Preface The present work is intended to meet the wants of a large number of persons especially sportsmen who are interested in birds and would like to know their names but often find it no easy task to identify them by the bird books To all such I offer this Key in which the species are arranged in groups according to size and believe it will enable any one unfamiliar with birds to identify with Comparative ease any species of our North American Anatid Birds vary so much in size that the length of any one specimen cannot be accepted as a standard for others of the same species The length measure is nevertheless of value to enable us to form an approximate idea of the size of the bird The length of the wing is however much less variable and is an important aid to the identification of many species In fact the variation is so small and constant that allowing for possible extremes they may be arranged in groups according to length of wing The identification of any species then becomes a very simple matter as usually the birds contained in each group are so few in number that characteristic differences in each species are easily indicated Let us assume for example we have before us a bird which we wish to identify We first measure the wing see directions for measurements illustrated page 7 and we find the wing measures 5 90 inches

long We now turn to the Index to Key and find that Group I contains birds having the wing measuring from 5 50 to 6 50 inches long Turning to Group I we find it contains two sections Section 1 comprising ducks having a hind toe without flap or lobe and Section 2 comprising ducks having a flap on the hind toe As our duck has a flap on its hind toe it evidently belongs to this section We find Section 2 divided in two parts Part 1 with tail feathers not stiff and pointed and Part 2 tail feathers stiff and pointed Our duck has stiff pointed tail feathers and therefore belongs in Part 2 Part 2 contains two species one having front of head and cheeks black the other with sides of head more or less white As our duck has a patch of white on the side of the head it must therefore be the Ruddy Duck *Erismaturu rubida* *Ducks, Geese, and Swans* Oscar J.
