

DURKHEIM
RECONSIDERED

SUSAN STEDMAN JONES

Durkheim Reconsidered

Daniel L. Pals

Durkheim Reconsidered:

Durkheim Reconsidered Susan Stedman Jones, 2001-04-25 Durkheim is one of the founding fathers of modern sociology and a key figure in the development of social theory. And yet today his work is often misunderstood since it is commonly viewed through the lens of later authors who used his writings to illustrate certain tendencies in social thought. Durkheim Reconsidered challenges the common views of Durkheim and offers a fresh and much needed reappraisal of his ideas. Stedman Jones dismantles the interpretations of Durkheim that remain widespread in Anglo American sociology and then examines afresh his major works placing them in their historical and political context. She emphasizes Durkheim's debt to the socialist and republican thought of his contemporaries and especially to Renouvier who she argues had a profound influence on Durkheim's approach. This book will be recognised as a major reinterpretation of the work of one of the most important figures in the history of sociology and social thought. It will be of great interest to scholars and students in sociology, anthropology and related disciplines.

Durkheim Reconsidered Allen J. Chun, 1987 **Durkheim Reconsidered**,

Emile Durkheim Prof Kenneth Thompson, 2003-10-04 This book examines Durkheim's considerable achievements and situates them in their social and intellectual contexts with a concise account of the major elements of Durkheim's sociology. The book includes a critical commentary on the four main studies which exemplify Durkheim's contribution to sociology: The Division of Labour in Society, Suicide, The Rules of Sociological Method and The Elementary Forms of Religious Life.

The Oxford Handbook of Religion and Emotion John Corrigan, 2008 This volume collects essays under four categories: religious traditions, religious life, emotional states and historical and theoretical perspectives. They describe the ways in which emotions affect various world religions and analyse the manner in which certain components of religious represent and shape emotional performance.

Revisiting Durkheim's Sociology of Suicide Bernard B. Berk, 2026-01-30 This book explicates Durkheim's theory of suicide, reveals its ambiguities and contradictions, and sets forward a new framework to unify its various hypotheses. Since Durkheim never fully integrated his theory, this has led to varying interpretations of Durkheim's theories among scholars, and subsequently this caused a failure to create a cumulative body of findings about suicide due to inconsistency. This book hopes to remedy that condition by clarifying and unifying his overall theory so it can be understood and tested for sociological theory and thinking today. Durkheim produced his groundbreaking treatise *Suicide*, establishing sociology as a distinctive field of study and demonstrating that social forces are real and can be studied scientifically. He argued that the volume types and patterns of suicide are a result of the social forces generated by the moral structure of each society and named these forces integration and regulation. This demonstrated that suicide is not alien to society but instead is a byproduct of the way society is organized. Though his work is over a century old, the problems it confronts of society's inability to maintain unity and cohesion in the face of increasing diversity are as relevant today as in Durkheim's time. By illuminating the contours of Durkheim's famous volume and providing a critical new perspective that shows how its

features work this volume will be an essential resource for sociologists and social theorists of classical and historical sociology as well as a key volume for courses in sociology of mental health and cultural sociology It will also serve as an important guide for students and instructors in studying a foundational text and thinker for the discipline The History of Continental Philosophy Alan D. Schrift,2013-04-12 From Kant to Kierkegaard from Hegel to Heidegger continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century Although much has been written about these monumental thinkers students and scholars lack a definitive guide to the entire scope of the continental tradition The most comprehensive reference work to date this eight volume History of Continental Philosophy will both encapsulate the subject and reorient our understanding of it Beginning with an overview of Kant s philosophy and its initial reception the History traces the evolution of continental philosophy through major figures as well as movements such as existentialism phenomenology hermeneutics and poststructuralism The final volume outlines the current state of the field bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism globalization and the environment Throughout the volumes examine important philosophical figures and developments in their historical political and cultural contexts The first reference of its kind A History of Continental Philosophy has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers texts and movements in rigorous yet jargon free essays suitable for both undergraduates and seasoned specialists These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy surveying the distinctive sometimes overlapping characteristics and approaches of each tradition Featuring helpful overviews of major topics and plotting road maps to their underlying contexts A History of Continental Philosophy is destined to be the resource of first and last resort for students and scholars alike

The Durkheimian Legacy Reconsidered Christopher S. Girard,1988 **The Sociology of the Stranger** Kwang-ki Kim,2026-01-08 The Sociology of the Stranger offers a groundbreaking reappraisal of the stranger as a central social type reframing estrangement as a critical lens for understanding identity belonging and the transformative conditions of modern social life **The New Century** Keith Ansell-Pearson,Alan D. Schrift,2014-09-03 This volume covers the period between the 1890s and 1930s a period that witnessed revolutions in the arts and society which set the agenda for the rest of the century In philosophy the period saw the birth of analytic philosophy the development of new programmes and new modes of inquiry the emergence of phenomenology as a new rigorous science the birth of Freudian psychoanalysis and the maturing of the discipline of sociology This period saw the most influential work of a remarkable series of thinkers who reviewed evaluated and transformed 19th century thought A generation of thinkers among them Henri Bergson Emile Durkheim Sigmund Freud Martin Heidegger Edmund Husserl Karl Jaspers Max Scheler and Ludwig Wittgenstein completed the disenchantment of the world and sought a new re enchantment *Durkheimian Studies* ,2002 *The American Liberal Tradition Reconsidered* Mark Hulliung,2010 Eight prominent scholars consider whether Louis Hartz s interpretation of liberalism in his classic 1955

book should be repudiated or updated and whether a study of America as a liberal society is still a rewarding undertaking

Sociological Theory David Ashley, David Michael Orenstein, 2005 This text provides a comprehensive examination of classical sociological theory by introducing students to the life times and ideas of the figures who have had the greatest influence on the development of the field Each chapter focuses on one theorist and his ideas organized into a social and historical perspective Students will enjoy reading the background information on each theorist covered in the book These include such interesting highlights as Comte s days in military school the death of Durkheim s son in World War I Spencer s inability to commit to marriage and Hegel s illegitimate son Taking a critical and reflexive approach the text also discusses how classical theory affects sociology today

AMERICAN ANTHOLOGIST, 2002 *Eight Theories of Religion* Daniel L. Pals, 2006 Why do human beings believe in divinities Why do some seek eternal life while others seek escape from recurring lives Why do the beliefs and behaviors we typically call religious so deeply affect the human personality and so subtly weave their way through human society Revised and updated in this second edition *Eight Theories of Religion* considers how these fundamental questions have engaged the most important thinkers of the modern era Accessible systematic and succinct the text examines the classic interpretations of religion advanced by theorists who have left a major imprint on the intellectual culture of the twentieth century The second edition features a new chapter on Max Weber a revised introduction and a revised expanded conclusion that traces the paths of further inquiry and interpretation traveled by theorists in the most recent decades *Eight Theories of Religion Second Edition* begins with Edward Burnett Tylor and James Frazer two Victorian pioneers in anthropology and the comparative study of religion It then considers the great reductionist approaches of Sigmund Freud Emile Durkheim and Karl Marx all of whom have exercised wide influence up to the present day The discussion goes on to examine the leading challenges to reductionism as articulated by sociologist Max Weber new to this edition and Romanian American comparativist Mircea Eliade Finally it explores the newer methods and ideas arising from the African field studies of ethnographer E E Evans Pritchard and the interpretive anthropology of Clifford Geertz Each chapter offers biographical background theoretical exposition conceptual analysis and critical assessment This common format allows for close comparison and careful evaluation throughout Ideal for use as a supplementary text in introductory religion courses or as the central text in sociology of religion and courses centered on the explanation and interpretation of religion *Eight Theories of Religion Second Edition* offers an illuminating treatment of this controversial and fascinating subject

Thorstein Veblen and the Enrichment of Evolutionary Naturalism Rick Tilman, 2007 Tilman argues that evolutionary naturalism provides the philosophical foundations of Veblen s thought He links evolutionary naturalism to Veblen s aesthetics secular humanism sociology of control sociobiology and sociology of knowledge thereby initiating observations regarding the relationship of Veblen s own life to his thinking and his place as a cultural lag theorist Provided by publisher
