era as ocularcentric this book reads the Medusa effect on the philosophy of the modern research university as rooted in an  
audiocentric fantasy Author Dawne McCance links phonocentrism to an aural imaginary by tracking the trope and terror of  
the deaf ear and mute mouth in the discourse on the university that was inaugurated by Kant and that extends through Hegel  
and Heidegger to the present She shows how repeatedly in founding texts on the modern research university the philosopher  
s fearful recoil from an animal female figure that he defines as deaf and dumb has the effect the Medusa effect of cutting off  
his own and therefore the institution s ear and tongue McCance also considers some recent efforts to shake the modern  
institution out of its Medusa effect petrification    Compressed Air ,1910
