Dutch Golden Age:

Dutch Culture in the Golden Age J. L. Price, 2012-01-01 The seventeenth century is considered the Dutch Golden Age a time when the Dutch were at the forefront of social change economics the sciences and art In Dutch Culture in the Golden Age eminent historian J L Price goes beyond the standard descriptions of the cultural achievements of the Dutch during this time by placing these many achievements within their social context Price s central argument is that alongside the innovative tendencies in Dutch society and culture there were powerful conservative and reactionary forces at work and that it was the tension between these contradictory impulses that gave the period its unique and powerful dynamic Dutch Culture in the Golden Age is distinctive in its broad scope examining art literature religion political ideology theology and scientific and intellectual trends while also attending to the high and popular culture of the times Price s new interpretation of Dutch history places an emphasis on the paradox of the Dutch resistance to change as well as their general acceptance of innovation This comprehensive look at the Dutch Golden Age provides a fascinating new way to understand Dutch culture at the height of its historic and global influence

Picturing Men and Women in the Dutch Golden Age Muizelaar Klaske, Klaske Muizelaar, Derek L. Phillips, 2003-01-01 Taking as their premiss the subjective experience of art the authors look at how paintings by Rembrandt Vermeer other masters were displayed comprehended in

the 17th century **The Dutch Golden Age** Hans Goedkoop, Kees Zandvliet, 2020-09-05 The Netherlands in the Golden Age was almost unrecognisable compared with today and yet in some ways it was not. Refugees sought a safe haven there, migrants did the heavy work and youngsters created a youth culture. Consumers wanted the latest fashions, investors bought shares and large shareholders made risky speculations. The story of the seventeenth century is and remains a miracle. A hotchpotch of provinces revolted against the Spanish king and then in a series of ups and downs built a new state that developed into an experiment unlike anything the world had ever seen before. A society emerged that was ruled by its citizens, a society of unprecedented freedoms and myriad religions, ships that sailed the world over and trading posts from Indonesia to Brazil. Scientists unravelled the mysteries of nature and painters presented a new vision of reality. So how should we regard such a miracle? The Dutch Golden Age sees the Dutch seventeenth century, the Golden Age, as a gateway to today's modern times, a period in which the Netherlands and Holland and Amsterdam in particular became a laboratory that the world used for experimental research on globalisation, migration, tolerance, consumerism, investment and media hypes and many other modern trends.

Dutch Golden Age(s) Jan Blanc, 2020 This volume critically re-examines the key building blocks of the construct of the Dutch Golden Age: their origins, the numerous and diverse purposes they have served and their long-lasting cultural and historiographical impact. For a long time the Dutch Golden Age has been regarded as a historiographical construction or reconstruction dating from the second half of the nineteenth century when the rise of nationalist and even racist histories and art histories was intended to promote the principle of a Dutch cultural identity visible and analysable beyond the vicissitudes of time. This volume shows how the notion of the Golden Age built on the ancient notion of *aetas aurea* was constructed by the Dutch and for the Dutch at the end of the sixteenth century first to try to justify the theoretically questionable revolt of the Northern Netherlands against Spanish rule and then to give shape to the new state and the new society created. However, we will see that there is not one but several possible definitions of this Golden Age and consequently that it cannot be confined to one conception so that it would be preferable to speak of a multitude of Dutch Golden Ages.

by ceaseless creativity huge levels of production and a style that was unique and typical of that time The great names of Rembrandt Vermeer and Frans Hals are world famous but the paintings of the lesser known old masters are often wonderful splendid exquisite or imposing

Tulipmania Anne Goldgar,2008-09-15 In the 1630s the Netherlands was gripped by tulipmania a speculative fever unprecedented in scale and as popular history would have it folly We all know the outline of the story how otherwise sensible merchants nobles and artisans spent all they had and much that they didn't on tulip bulbs We have heard how these bulbs changed hands hundreds of times in a single day and how some bulbs sold and resold for thousands of guilders never even existed Tulipmania is seen as an example of the gullibility of crowds and the dangers of financial speculation But it wasn't like that As Anne Goldgar reveals in *Tulipmania* not one of these stories is true Making use of extensive archival research she lays waste to the legends revealing that while the 1630s did see a speculative bubble in tulip prices neither the height of the bubble nor its bursting were anywhere near as dramatic as we tend to think By clearing away the accumulated myths Goldgar is able to show us instead the far more interesting reality the ways in which tulipmania reflected deep anxieties about the transformation of Dutch society in the Golden Age Goldgar tells us at the start of her excellent debunking book Most of what we have heard of tulipmania is not true She tells a new story Simon Kuper *Financial Times*
