Dwelling In Possibility:

Dwelling in Possibility Howard Mansfield,2013 The mystery that attracts Howard Mansfield s attention is that some houses have lifeare home are dwellings and others aren t Dwelling he says is an old fashioned word that we ve misplaced When we live heart and soul we dwell When we belong to a place we dwell Possession they say is nine tenths of the law but it is also what too many houses and towns lack We are not possessed by our home places This lost quality of dwellingthe soul of buildingshaunts most of our houses and our landscape Dwelling in Possibility is a search for the ordinary qualities that make some houses a home and some public places welcoming

Dwelling in Possibility Emily Seelbinder,1980 **Dwelling in Possibility** Linda Villegas Bremer,2020-10-09 In each moment we have choices There was a time when living by default was my way to live my life This meant just accepting whatever came along Then there was a BFO a blinding flash of the obvious Manifesting that which is most important to me became achievable Actually I attended a class on personal growth where I learned that living with a focus on purpose allowed me to make wiser choices To become aware of what my current expectations were To see where I was making judgments based on limiting beliefs To open myself up to exercising responsibility my ability to respond Scientific research has proven that we create out of our habits and that habits can be changed after consistent exercise of new routines day after day When science is blended with mysticism there seems to be a wormhole in our imagination cosmos Hence after seeing the significance of the number 40 across centuries this 40 day journey is one of discovery of remembrance of who we are As we navigate our way through time it s feasible to pause and take a look around at all that is viable To be mindful to know the present moment is replete with opportunity allows us to really look at our path and choose again We can let go of the past and move beyond history If we love our present journey we are primed for even greater good In this universe of universes string theory and quantum mechanics tell us about the quantum void This void isn t empty at all It s actually filled with quantum energy and particles that flash in and out of beingness for a fleeting moment Yes We are energy in motion Yes We came to be out of that nothingness Yes We dwell in possibility
