Dying Good:

Dying Well Ira Byock, 1998-03-01 From Ira Byock prominent palliative care physician and expert in end of life decisions a lesson in Dying Well Nobody should have to die in pain Nobody should have to die alone This is Ira Byock's dream and he is dedicating his life to making it come true Dying Well brings us to the homes and bedsides of families with whom Dr Byock has worked telling stories of love and reconciliation in the face of tragedy pain medical drama and conflict Through the true stories of patients he shows us that a lot of important emotional work can be accomplished in the final months weeks and even days of life It is a companion for families showing them how to deal with doctors how to talk to loved ones and how to make the end of life as meaningful and enriching as the beginning Ira Byock is also the author of *The Best Care Possible A Physician's Quest to Transform Care Through the End of Life* *The Good Death* Ann Neumann, 2016-02-16 Following the death of her father journalist and hospice volunteer Ann Neumann sets out to examine what it means to die well in the United States When Ann Neumann's father was diagnosed with non Hodgkin's lymphoma she left her job and moved back to her hometown of Lancaster Pennsylvania She became his full time caregiver cooking cleaning and administering medications When her father died she was undone by the experience by grief and the visceral quality of dying Neumann struggled to put her life back in order and found herself haunted by a question Was her father's death a good death The way we talk about dying and the way we actually die are two very different things she discovered and many of us are shielded from what death actually looks like To gain a better understanding Neumann became a hospice volunteer and set out to discover what a good death is today She attended conferences academic lectures and grief sessions in church basements She went to Montana to talk with the attorney who successfully argued for the legalization of aid in dying and to Scranton Pennsylvania to listen to pro life groups who believe the removal of feeding tubes from some patients is tantamount to murder Above all she listened to the stories of those who were close to death What Neumann found is that death in contemporary America is much more complicated than we think Medical technologies and increased life expectancies have changed the very definition of medical death And although death is our common fate it is also a divisive issue that we all experience differently What constitutes a good death is unique to each of us depending on our age race economic status culture and beliefs What's more differing concepts of choice autonomy and consent make death a contested landscape governed by social medical legal and religious systems In these pages Neumann brings us intimate portraits of the nurses patients bishops bioethicists and activists who are shaping the way we die The Good Death presents a fearless examination of how we approach death and how those of us close to dying loved ones live in death's wake **The Art of Dying Well** Katy Butler, 2019-02-19 This comforting thoughtful The Washington Post guide to maintaining a high quality of life from resilient old age to the first inklings of a serious illness to the final breath by the New York Times bestselling author of *Knocking on Heaven's Door* is a roadmap to the end that combines medical practical and spiritual guidance The Boston Globe A common sense path to define what a good death looks like USA
