**Language, Literature, and the Dynamics of Conflict** Eunice Ngongkum, Hans Fonka, 2023-12-18 Informed by a global space animated by various conflicts this book brings a refreshing perspective on how the disciplines of literature and language engage this phenomenon In its shift from a purely political interrogation of conflict the volume provides a broad analytic canvas on which human behaviour in such contexts can be examined This is an ultimate invitation to a re-visioning of socio-cultural parameters of identity construction borders natural resources religion cultural values beliefs governance ideology and globalisation The book's varied perspective animated by a rich diversity of literary and linguistic approaches gives it an interdisciplinary emphasis that will appeal to readers across disciplines Its ultimate message is that conflict is not subject-bound The liberal analysis of different aspects makes the volume an invaluable asset not only to literature and language scholars but also to everyone with inclinations towards conflict creation and management

**Matter and Life in Coleridge, Schelling, and Other Dynamical Idealists** Peter Cheyne, 2025-05-12 This book written by renowned historians of philosophy literature and science provides a distinctively interdisciplinary work on matter and life in early modern Germany and Britain 1600-1850 It interrelates key theories of matter and the life sciences from Jakob Böhme Ralph Cudworth G.W. Leibniz Anthony Cooper Shaftesbury Immanuel Kant J.W. Goethe Novalis Friedrich Schelling G.W.F. Hegel S.T. Coleridge and Arthur Schopenhauer Schelling's centrality in the philosophy of nature is highlighted but also Coleridge's role in importing and adapting German philosophical and scientific insights into the domain of British science runs through the book At the core of this original project is an interrelated and interdependent analysis of Cambridge Platonism German idealism and British romanticism Under the umbrella term of dynamical idealists the editor of the volume refers to investigators of the vital energy of nature who characteristically combined the tradition of early modern speculative idealism with enquiries into an experiential study of nature involving mysticism chemistry and empirical accounts of physical matter Significantly several chapters concentrate on the relationships between human will agency freedom and God shedding light on modern conceptions of subjectivity and selfhood All of the above makes this book of great value to historians of philosophy literature and science

**Integral Dynamics** Ronnie Lessem, Alexander Schieffer, Samuel D. Rima, 2016-05-23 The theory of integral dynamics is based on the view that the development of individual leaders or entrepreneurs requires the simultaneous development of institutions and societies It seeks a specific way forward for each society fundamentally different from but drawing on its past Nearly every natural science has been transformed from an analytically based approach to a dynamic one now it is time for society and culture to follow suit locally and globally Each culture discipline and person is incomplete and is in need of others in order to develop and evolve This book sets out a curriculum for a new integral trans-cultural and trans-disciplinary area of study inclusive of but extending beyond economics and enterprise It embraces a trans-personal perspective linking self with community enterprise and society and focusing on the vital relationship between local identity

and global integrity For the government policy maker the enlightened business practitioner and the student and researcher into economics and enterprise the new discipline is set out here in complete detail by a multi national team of Gower s Transformation and Innovation Series authors Illuminated with examples relating the conceptual to the practical this is a text not for a pre modern modern or even post modern era but for what has been called our trans modern age **Poetry Review** Stephen Phillips,Galloway Kyle,1925 **The Congregationalist and Christian World** ,1909 *Poems for Youth* William Rose Benét,1925 A generous selection of the most striking poems of American poets old and new compiled especially for young Americans in their teens **The Academy and Literature** ,1911 The Poetry Journal ,1915 **Voices** ,1926 **Dynamic Poetrys of Life** Jometta Styles-Johnson,2003-05-01 System of positive polity: Social dynamics Auguste Comte,1876 **The Poetry Journal** Richard Montague Hunt,Edmund Randolph Brown,1914 **Youth, Poetry of Today** ,1918 **The Dial** Francis Fisher Browne,1914 *System of Positive Polity: Social dynamics; or, the general theory of human progress* Auguste Comte,1876 **Introductory Treatise on Rigid Dynamics** William Steadman Aldis,1882 **Academy and Literature** Charles Edward Cutts Birch Appleton,Charles Edward Doble,James Sutherland Cotton,Charles Lewis Hind,William Teignmouth Shore,Alfred Bruce Douglas,Ellis Ashmead-Bartlett,Thomas William Hodgson Crosland,1911 **Contemporary Verse** ,1926 *Ethical democracy, essays in social dynamics* Stanton Coit,1900 *Elementary Dynamics* William Meath Baker,1908
