## **Dynamical Theory Selected Works:**

**Selected Works: Dynamical theory** Nikolai Nikolaevich Bogolubov, 1990      **Quantum and Classical Statistical Mechanics** N. N. Bogolubov, 1990      *Dynamical Theory* N. N. Bogolubov, 1990 A collection of Bogolubov's papers on dynamical theory which introduce the key concept of the hierarchy of relaxation times in statistical physics A method of obtaining a system of coupled equations for the probability densities for groups of one or more particles is proposed This has proved to be the most effective method in statistical mechanics for equilibrium and non equilibrium to date In his papers Bogolubov clarifies how stochastic behaviour which is specific for a macroscopic description arises in a purely mechanistic approach in which microscopic equations of dynamical theory are used      *Descriptive Theory of Sets and Functions. Functional Analysis in Semi-ordered Spaces* L.V. Kantorovich, 1996-02-19 This book presents articles of L V Kantorovich on the descriptive theory of sets and function and on functional analysis in semi ordered spaces to demonstrate the unity of L V Kantorovich's creative research It also includes two papers on the extension of Hilbert space      *The Dynamical Theory of Gases* James Jeans, 1921      **Dynamical Theory of the Capture of Satellites and of the Division of Nebulae Under the Secular Action of a Resisting Medium** T. J. J. See, 1909      **Post-Keynesian Theories of the Firm** Nobantu L. Mbeki, 2023-04-07 Within Post Keynesian economics there is a spectrum of approaches to theories of the firm but what they have in common to their great benefit is a proper integration of the concept of radical uncertainty data that cannot be known This book revisits Kalecki's theory of the firm is located to show that it constitutes fertile theoretical ground on which to systematically understand the resultant indeterminacy when firms operate under conditions of radical uncertainty The author proposes a way of generalising radical uncertainty by integrating some of the separate approaches within Post Keynesian economics centred around Kalecki's work Through this it is shown that radical uncertainty does more than just change the ultimate motivation of firms dropping short run profit maximisation more complex motivation interconnectivity with the environment it is central to the emergence existence and motivation of firms and critically also firm strategy It is argued that firms do not simply respond to uncertainty it is the systematic cause of their intentional behaviour Through developing these arguments the book also contributes to the methodology of Kalecki and Shackle as well as Kaleckian price theory This book will be important reading for anyone interested in theories of the firm Post Keynesian economics and heterodox approaches to economics more broadly      *The Mathematical Theory of Electricity and Magnetism* James Jeans, 1908      [The Complete Works of Samuel Taylor Coleridge](#) Samuel Taylor Coleridge, 1871      **Selected Papers ...: Theory of sound** , 1928      [Physical Review](#) , 1917 Vols for 1903 include Proceedings of the American Physical Society      **The Theory of Sound** Rayleigh, 1894      **The Theory of Sound** John William Strutt Baron Rayleigh, 1894      *Proceedings of the Royal Society* , 1892      **Proceedings of the Royal Society of London** Royal Society (Great Britain), 1892      *Mathematical and physical papers* , 1882      **Mathematical and Physical Papers** William Thomson Baron Kelvin, 1882      **Selected Papers on the**
