Dynamics Of Contention:

Dynamics of Contention Doug McAdam, Sidney G. Tarrow, Charles Tilly, 2001-09-10 Over the past two decades the study of social movements revolution democratization and other forms of nonroutine or contentious politics has flourished as never before And yet theory and research on the topic remain highly fragmented The first of these divisions reflects the long standing view that various forms of contention are indeed distinct and should be studied independent of others A second traditional approach to the study of political contention denies the possibility of general theory in deference to a thorough grounding in the temporal and spatial particulars of any given episode of contention Finally overlaid on these two divisions are stylized theoretical traditions structuralist culturalist and rationalist that have developed largely in isolation from one another
