Baby Boomer Health Dynamics How Are We Aging:

Baby Boomer Health Dynamics Andrew V. Wister, 2005-01-01 Are the baby boomers in Canada more or less healthy than previous generations What are the implications of this for the national health care system Baby Boomer Health Dynamic responds to the growing interest in the generation that makes up over one third of the Canadian population the largest segment of society with the leading edge reaching their sixty fifth birthday in 2011 and eighty five by 2031 Focusing on four health behaviours that have been proven to be major risk factors for disease smoking unhealthy exercise obesity and heavy drinking Andrew V Wister researches the long term implications of several key lifestyle health conundrums most notably the paradoxical relationship in the concurrent trends over the last two decades of increased exercise levels and a significant rise in obesity This invariably leads to questions about the eating habits of North Americans and in particular the quantity and quality of fast food and convenience food consumption Recent public declarations by a number of health organizations and institutes that we are experiencing an obesity crisis and moreover that obesity is the new tobacco makes Baby Boomer Health Dynamics both timely and topical Insights in Aging and Public Health: 2022 Marcia G. Ory, Matthew Lee Smith, 2023-10-27 This collection is part of a recurrent series Insights in Aging and Public Health 2021 Our global society is changing Now in the third decade of the 21st Century the achievements made by scientists have led to major advancements in the fast growing field of Aging and Public Health As indicated by the United Nations Declaration of the Decade of Healthy Aging 2021 2030 there is global interest in understanding determinants of healthy aging and strategies to improve the lives of older people their families and the communities in which they live As such the field of public health and aging must constantly evolve and adapt alongside the ongoing changes in population growth and demographics social and physical environments and policy and other drivers of health related costs Further the indicators of risk and markers of success have assumed new meaning as new societal needs challenges **Resilience and Aging** Andrew V. Wister, Theodore D. Cosco, 2021-01-04 Older aged adults face many adversities over the later life course This edited volume will address the ways in which seniors bounce back from different types and combinations of adversity termed resilience While research has been accumulating that identifies inherent abilities and external resources needed to adapt and navigate stress inducing experiences among aging and older adults gaps remain in understanding the unique elements and processes of resilience A series of chapters included in this book will address several overarching questions why do some older individuals families communities adapt to adversity better than others what are modifiable behavioral protective risk factors related to resilience and how can we foster resilience at the individual community level and which approaches show the most promise The spectrum of aging related challenges and responses addressed in this book include mental health physical functional health problems multimorbidity socio economic deprivation social isolation and loneliness cultural dimensions of loneliness housing homelessness problems and environmental disasters This book presents cutting edge science at the conceptual

methodological empirical and practice levels applied to emerging resilience sub fields in gerontology It will also present potential areas of future research policy and practice linked to these areas During a period of the most rapid population aging in the US Canada and many other nations coupled with heightened global socio political change extending our knowledge of resilience will help society to make important adjustments to maximize health and wellness of older individuals Supporting and enhancing resilience through technological social and or community level advances in geroscience will help those facing adversity to thrive by harnessing stretching and leveraging a wide array of potential resources The promotion of healthier older populations has far reaching consequences for health care and social community support systems both in terms of public health including pandemic response and the development and implementation of innovations in treatment and practice guidelines

Medical Sociology and Old Age Paul Higgs,Ian Rees Jones,2009 This book reflects on how our understanding and experience of health at later ages in particular can impact on social and technological developments
