Mortimore, 1996 **From Starship Captains to Galactic Rebels** Kimberley Yost, 2013-12-12 Real world leaders hold the fates of companies armies and nations in their hands but the leaders portrayed in science fiction play for larger stakes Their decisions determine the survival of species planets or reality itself They tend therefore to be larger than life characters like Doc Savage Obi Wan Kenobi and Captain James T Kirk In *From Starship Captains to Galactic Rebels* Kimberley Yost brings the principles of leadership studies to bear on characters from a quarter century of classic science fiction television series examining how their adventures can illuminate the challenges of real world leadership These in depth case studies cover a full range of science fictional leaders from conventional heroes such as Jonathan Archer of *Star Trek Enterprise* to William Adama and Laura Roslin the dark conflicted protagonists of *Battlestar Galactica* Charismatic rebels like Malcolm Reynolds of *Firefly* and the ragtag fugitives of *Farscape* stand alongside pillars of the establishment like John Sheridan of *Babylon 5* In her analysis Yost considers emerging flawed and failed leaders as well as successful ones women as well as men and aliens as well as humans An insightful examination of how leadership is represented on the small screen *From Starship Captains to Galactic Rebels* will appeal not only to fans of televised science fiction but also to those grappling with the problems of leadership regardless of their species *The State of Cultural Biology* James Griffin, 2023-11-03 Offering a novel and pragmatic perspective this timely book critically examines the development of a culture of machinist regulation and questions whether this approach is appropriate in an era of rising biological technologies Adopting an ontological approach James Griffin considers how current regulatory frameworks favour digital technology and how this may change in the future
