Baby's First Picture Ultrasound And The Politics Of Fetal Subjects:

Baby's First Picture Lisa Meryn Mitchell, 2001-01-01 Mitchell argues what is seen through ultrasound is neither self evident nor natural but historically and culturally contingent and subject to a wide range of interpretation Baby's First Picture Lisa Meryn Mitchell, 2001 Mitchell argues what is seen through ultrasound is neither self evident nor natural but historically and culturally contingent and subject to a wide range of interpretation New Reproductive Technologies and Disembodiment Carla Lam, 2016-04-22 With attention to the ways in which new reproductive technologies facilitate the gradual disembodiment of reproduction this book reveals the paradox of women's reproductive experience in patriarchal cultures as being both and often simultaneously empowering and disempowering A rich exploration of birth appropriation in the West New Reproductive Technologies and Disembodiment investigates the assimilation of women's embodied power into patriarchal systems of symbolism culture and politics through the inversion of women's and men's reproductive roles Contending that new reproductive technologies represent another world historical moment both in their forging of novel social relations and material processes of reproduction and their manner of disembodiment of women in unprecedented ways a disembodiment evident in recent visual and literary popular and academic texts this volume locates the roots of this disembodiment in western political discourse A call to feminist political theory to re remember the material dimensions of bodies and their philosophical significance New Reproductive Technologies and Disembodiment will appeal to scholars of sociology gender studies political and social theory and the study of science technology and health **Down's Syndrome Screening and Reproductive Politics** Gareth M. Thomas, 2017-03-16 Nominated for the Foundation of Sociology of Health and Illness Book Prize 2018 In the UK and beyond Down's syndrome screening has become a universal programme in prenatal care But why does screening persist particularly in light of research that highlights pregnant women's ambivalent and problematic experiences with it Drawing on an ethnography of Down's syndrome screening in two UK clinics Thomas explores how and why we are so invested in this practice and what effects this has on those involved Informed by theoretical approaches that privilege the mundane and micro practices discourses materials and rituals of everyday life Down's Syndrome Screening and Reproductive Politics describes the banal world of the clinic and in particular the professionals contained within it who are responsible for delivering this programme In so doing it illustrates how Down's syndrome screening is downgraded and subsequently stabilised as a routine part of a pregnancy Further the book captures how this routinisation is deepened by a systematic but subtle framing of Down's syndrome as a negative pregnancy outcome By unpacking the complex relationships between professionals parents technology policy and clinical practice Thomas identifies how and why screening is successfully routinised and how it is embroiled in both new and familiar debates surrounding pregnancy ethics choice diagnosis care disability and parenthood The book will appeal to academics students and professionals interested in medical sociology medical anthropology science and technology studies STS bioethics genetics

and or disability studies **Feminist Interpretations of Thomas Hobbes** Nancy J. Hirschmann, Joanne H. Wright, 2012-11-09 Feminist Interpretations of Thomas Hobbes features the work of feminist scholars who are centrally engaged with Hobbes's ideas and texts and who view Hobbes as an important touchstone in modern political thought Bringing together scholars from the disciplines of philosophy history political theory and English literature who embrace diverse theoretical and philosophical approaches and a range of feminist perspectives this interdisciplinary collection aims to appeal to an audience of Hobbes scholars and nonspecialists alike As a theorist whose trademark is a compelling argument for absolute sovereignty Hobbes may seem initially to have little to offer twenty first century feminist thought Yet as the contributors to this collection demonstrate Hobbesian political thought provides fertile ground for feminist inquiry Indeed in engaging Hobbes feminist theory engages with what is perhaps the clearest and most influential articulation of the foundational concepts and ideas associated with modernity freedom equality human nature authority consent coercion political obligation and citizenship Aside from the editors the contributors are Joanne Boucher Karen Detlefsen Karen Green Wendy Gunther Canada Jane S Jaquette S A Lloyd Su Fang Ng Carole Pateman Gordon Schochet Quentin Skinner and Susanne Sreedhar **Abortion** Shannon Stettner, Kristin Burnett, Travis Hay, 2017-12-01 When Henry Morgentaler Canada's best known abortion rights advocate died in 2013 activists and scholars began to reassess the state of abortion in this country In Abortion some of the foremost researchers in Canada challenge current thinking by revealing the discrepancy between what people are experiencing on the ground and what people believe the law to be after the 1988 Morgentaler decision Grouped into four themes History Experience Politics and Reproductive Justice these essays showcase new theoretical frameworks and approaches from law history medicine women's studies and political science as they document the diversity of abortion experiences across the country from those of Indigenous women in the pre Morgentaler era to a lack of access in the age of so called decriminalization Together the contributors make a case for shifting the debate from abortion rights to reproductive justice and caution against focusing on choice or medicalization without understanding the broader context of why and when people seek out abortions **Women, Monstrosity and Horror Film** Erin Harrington, 2017-08-10 Women occupy a privileged place in horror film Horror is a space of entertainment and excitement of terror and dread and one that relishes the complexities that arise when boundaries of taste of bodies of reason are blurred and dismantled It is also a site of expression and exploration that leverages the narrative and aesthetic horrors of the reproductive the maternal and the sexual to expose the underpinnings of the social political and philosophical othering of women This book offers an in depth analysis of women in horror films through an exploration of gynaehorror films concerned with all aspects of female reproductive horror from reproductive and sexual organs to virginity pregnancy birth motherhood and finally to menopause Some of the themes explored include the intersection of horror monstrosity and sexual difference the relationships between normative female hetero sexuality and the twin figures of the chaste virgin and the voracious

vagina dentata embodiment and subjectivity in horror films about pregnancy and abortion reproductive technologies monstrosity and mad science the discursive construction and interrogation of monstrous motherhood and the relationships between menopause menstruation hagsploitation and abject barren bodies in horror The book not only offers a feminist interrogation of gynaeohorror but also a counter reading of the gynaeohorrific that both accounts for and opens up new spaces of productive radical and subversive monstrosity within a mode of representation and expression that has often been accused of being misogynistic It therefore makes a unique contribution to the study of women in horror film specifically while also providing new insights in the broader area of popular culture gender and film philosophy *Without Apology* Shannon Stettner,2016-08-26 Until the late 1960s the authorities on abortion were for the most part men politicians clergy lawyers physicians all of whom had an interest in regulating women s bodies Even today when we hear women speak publicly about abortion the voices are usually those of the leaders of women s and abortion rights organizations women who hold political office and on occasion female physicians We also hear quite frequently from spokeswomen for anti abortion groups Rarely however do we hear the voices of ordinary women women whose lives have been in some way touched by abortion Their thoughts typically owe more to human circumstance than to ideology and without them we run the risk of thinking and talking about the issue of abortion only in the abstract *Without Apology* seeks to address this issue by gathering the voices of activists feminists and scholars as well as abortion providers and clinic support staff alongside the stories of women whose experience with abortion is more personal With the particular aim of moving beyond the polarizing rhetoric that has characterized the issue of abortion and reproductive justice for so long *Without Apology* is an engrossing and arresting account that will promote both reflection and discussion *The Public Life of the Fetal Sonogram* Janelle S. Taylor,2008 In *The Public Life of the Fetal Sonogram* medical anthropologist Janelle S Taylor analyzes the full sociocultural context of ultrasound technology and imagery This book offers much needed critical awareness of the less easily recognized ways in which ultrasound technology is profoundly social and political in the United States today Resources for Feminist Research ,2003 Canadian Book Review Annual Joyce M. Wilson,2002-06 Annual Review of Anthropology Individuals,2005 This extra length 34th volume of the *Annual Review of Anthropology* has been reformatted so as to be easier to read a two column layout and to allow for glossary terms acronym spell outs and sidebars in the margins Also new in terms of format are annotated references designed to draw attention to key works in a longer list The Review contains *Journal of the Association for Research on Mothering* ,2004 Feminisms: Within and Without Rebecca Pelan,2006 **Bodies of Knowledge** Eugenia Georges,2008 Recipient of the 2006 Norman L and Roselea J Goldberg Prize for the best project in the area of medicine The author a second generation Greek American returned to Greece with her young daughter to do fieldwork over the course of a decade Focusing on Rhodes an island that blends continuity with the past and rapid social change in often unexpected ways she interviewed over a hundred women doctors and midwives about issues of reproduction

The result is a detailed portrait of how a longstanding system of local gynecological and obstetrical knowledge under the control of women was rapidly displaced in the the period following World War II and how the technologically intensive biomedical model that took its place in turn assumed its own distinctive signature Bodies of Knowledge is a vivid ethnographic study of how a presumably globalizing and homogenizing process like medicalization can be reshaped as women and medical experts alike selectively accept or reject new practices and technologies Georges found for example that women in Rhodes have enthusiastically embraced some new technologies like fetal imaging during pregnancy but rejected others like medical contraception They are also avid consumers of popular childbirth manuals This book is the recipient of the 2006 Norman L and Roselea J Goldberg Prize for the best project in the area of medicine **New Waves in Philosophy of Technology** Jan Kyrre Berg Olsen Friis,Evan Selinger,Søren Riis,2009-01-15 This volume on the philosophy of technology collects new work by the most talented young philosophers in the subject It is a unique collection that crosses the divide between analytic and continental philosophy showing that the rising challenges and extraordinary new possibilities brought about by technological developments necessitate the emergence of new forms of critical philosophical reflection Thought provoking and rigorous this book will stimulate and direct further philosophical research for students and researches in philosophy of science and technology **History and Philosophy of the Life Sciences** ,1979 Feminist Periodicals ,2003 **American Jurisprudence Proof of Facts, Second Series** ,1974 Text and sample testimony to assist in preparing for and proving facts that may be in issue in judicial and administrative proceedings Radical Philosophy ,2008
