## **Babys Havin Babys:**

**Babies Having Babies** Kathryn Montgomery, Jeffrey Auerbach, 1987 An award winning teleplay on the subject of teen pregnancy now for high school theatre groups It s a frank sensitive humorous script always honest in its treatment of the topic and the young women facing the prospect of an unplanned unwanted pregnancy One that will satisfy teen actresses by its honesty its openness and appreciation of the pressures young women are expected to cope with frequently on their own with little or no guidance from elders and with little understanding compassion or thoughtfulness from their peers These are real people each one with her own aspirations and plans for the future a future which may or may not be dimmed by an unplanned pregnancy But these young women oppose fear and condemnation with a wary courage search for the realization and the strength to face the future on their own terms publisher Samuel French s website accessed 2 12 15 The Gendered Society Michael S. Kimmel, 2000 They say that we come from different planets men from Mars women from Venus that we have different brain chemistries and hormones and that we listen speak and even define our morals differently How is it then that men and women live together take the same classes in school eat the same food read the same books and receive grades according to the same criteria In The Gendered Society Michael S Kimmel examines our basic beliefs about gender arguing that men and women are more alike than we have ever imagined Kimmel begins his discussion by observing that all cultures share the notion that men and women are different and that the logical extension of this assumption is that gender differences cause the obvious inequalities between the sexes In fact he asserts that the reverse is true gender inequality causes the differences between men and women Gender is not simply a quality inherent in each individual it is deeply embedded in society s fundamental institutions the family school and the workplace The issues surrounding gender are complex and in order to clarify them the author has included a review of the existing literature in related disciplines such as biology anthropology psychology and sociology Finally with an eye towards the future Kimmel offers readers a glimpse at gender relations in the next millennium Well written well reasoned and authoritative The Gendered Society provides a thorough overview of the current thinking about gender while persuasively arguing that it is time to reevaluate what we thought we knew about men and women Kids Having Kids Rebecca A. Maynard, 2018-08-09 Published in 1997 Adolescent mothers are more likely to encounter a variety of economic and social ills than women who delay childbearing until they are adults This work is a comprehensive examination of the extent to which these undesirable outcomes are attributable to teen pregnancy itself rather than to the wider environment in which most of the pregnancies and the subsequent child rearing take place It also examines the consequences of adolescent pregnancy for the fathers of children and even more importantly for the children themselves **Kids Having Kids** Saul D. Hoffman, Rebecca A. Maynard, 2008 Teen childbearing in the United States has been declining since 1991 yet we consistently have the highest teen birth rates in the industrialized world In 1997 Kids Having Kids was the first comprehensive effort to identify the consequences of teen childbearing for the

mothers the fathers the children and our society Rather than simply comparing teen mothers with their childless counterparts the assembled researchers achieved a new methodological sophistication seeking to isolate the birth itself from the mother s circumstances and thus discover its true costs This updated second edition features a new chapter evaluating teen pregnancy interventions along with revised and updated versions of most first edition chapters

**Start Your Family** Candice Watters, Steve Watters, 2009-01-01 Starting a family is a soul shaping world altering experience Unfortunately in a culture of competing values and protracted timelines couples are increasingly backing their way into parenting or missing it altogether By the time the average couple tries to have kids they are often beyond their late twenties and surprised to learn they are sliding past the peak of their fertile years In *Start Your Family* Steve and Candice Watters encourage couples to be intentional about their timeline in the early years of marriage and to trust God to help them boldly launch their families Responding to the most common doubts and hurdles they offer biblical inspiration for the questions Why have kids When is the best time to start How can we fit kids into our lives
