Bach For Catholics Using Chorales In The Liturgy:

Bach for Catholics Edward Schaefer,1987 Bach for Catholics is a must for those who want to incorporate traditional masterpieces into liturgical celebration This manual provides precise directions on how to use Bach s chorale based organ works in the Catholic liturgy **The Hymn** ,2009 Pastoral Music ,2000 *Exploring Bach's B-minor Mass* Yo Tomita,Robin A. Leaver,Jan Smaczny,2013-10-17 The B minor Mass has always represented a fascinating challenge to musical scholarship Composed over the course of Johann Sebastian Bach s life it is considered by many to be the composer s greatest and most complex work The fourteen essays assembled in this volume originate from the International Symposium Understanding Bach s B minor mass at which scholars from eighteen countries gathered to debate the latest topics in the field In revised and updated form they comprise a thorough and systematic study of Bach s Opus Ultimum including a wide range of discussions relating to the Mass s historical background and contexts structure and proportion sources and editions and the reception of the work in the late eighteenth and early nineteenth centuries In the light of important new developments in the study of the piece this collection demonstrates the innovation and rigour for which Bach scholarship has become known *Melting the Venusberg* Heidi Epstein,2004-10-15 This book begins with a pointed critique of the foundations of the understanding of Western music that music from Pythagoras to the Renaissance has been viewed as the source and model of order in the universe and in society Unfortunately that order was rigidly hierarchical so that over the centuries music reinforced established social prejudices particularly those against women Nowhere was this more evident than in religious music that was regarded by male ecclesiastics and scholars as the instrument of choice for taming hysterical female eruptions Through her mordant commentary on a rich selection of texts by major thinkers from two millennia of Christian theology Heidi Epstein shows in the first part of *Melting the Venusberg* that music as the erotic embodiment of human engenderment has been ignored or suppressed while music as the expression of transcendent harmony order and restraint has been extolled The second re constructive part of *Melting the Venusberg* draws on ignored sources and lost tropes from the Christian tradition as well as on insights from the music and thought of historical and contemporary woman composers and performers from Hildegard of Bingen and Lucrezia Vizzana to Rosetta Tharpe and Diamanda Galas Through this recuperative synthesis music s theological significance changes keys as it moves beyond its symbolic function as divinely ordained harmonious microcosm into more dissonant metaphorical registers Those who have ears to hear will be delighted
