Back Of History The Story Of Our Origins:

Back of History William White Howells, 1954 *Embracing Our Roots* Paul J. Palma, 2021-03-31 America has provided a platform for countless migrant peoples who have in turn contributed to the nation's landscape as a multicultural land of opportunity. Still, the waves of assimilation can obscure the distinctive customs and beliefs of immigrants, many feeling coerced to conform to American attitudes towards race, the economy, and politics. Others, inundated with American media, consumerism, and secularity, have forgotten those aspects about their family heritage that make them unique. Drawing from Palma's background as an Italian American evangelical, *Embracing Our Roots* considers the significance of rediscovering our ancestral history in a society where many are forced to repress, ignore, or reject their heritage. A nation of immigrants, every American is in some sense an ethnic American and stands to gain from considering how the people and places they come from make them unique. In addition to using genealogy databases and social networks, Palma maintains the rich value of thumbing through the family archives, hearty conversations with loved ones, and building one's family tree. This book is for scholars and laypersons alike with interest in the themes of biblical living, faith-based traditions, food culture, immigration, social class, race, family dynamics, and mental health.

The Global Origins of Psychology Richard Valentine, 2023-10-13 This book offers a historical introduction to the remote origins of psychology and is the first book in a series on the history of the subject. Combining a deep history approach with the study of ancient civilisations, it places psychology in a historical and global context using rigorous academic research. This book begins by separating the Greek components of psychology, *psyche* and *logos*, in order to trace their histories, separate and together, through the global Neolithic and Bronze Ages. The author develops a toolkit by deconstructing the writing of history, modern psychology, and analysis of culture, and by introducing theories from neuroscience and cultural psychology that can be tested against the data. He then takes readers on a journey back in time from the borders of our current climatic envelope, the Holocene, towards the present through Ancient Iraq, Egypt, Israel, and China. Each chapter deepens the reader's understanding of psychology in its global context, outside the boundaries of Western culture. In so doing, the book initiates a post-colonial re-narration showing that the story of psychology is wider and deeper than many contemporary origin stories suggest. Presented in an accessible manner, this is an excellent resource for students of psychology, philosophy, history, linguistics, archaeology, and anthropology, as well as general readers who want to learn more about the origins of this fascinating subject. This title precedes *Shamanism and Psychology in Ancient Greece and India: The Evolution of Psyche*, which applies the same framework to the Indo-European world.

The History of Our Navy from Its Origin to the End of the War with Spain, 1775-1898, John Randolph Spears, 1902 **Hegel's History of Philosophy** David A. Duquette, 2012-02-01 This volume approaches the study of Hegel's *History of Philosophy* from a variety of angles while centering on Hegel's Berlin Lectures on the History of Philosophy, 1819-1831, which were given to students and later published. The lectures address most fundamentally what philosophy is: the philosophy of philosophy, so to speak. The

contributors treat many significant and topical issues including discussions of Hegel's overall idea of a history of philosophy his treatment of various philosophers and philosophical views from the historical tradition and the role of Hegel's own philosophical system as a culmination in the development of philosophy historically This unique collection provides incisive and provocative analyses on an area of study that until now has not garnered as much attention as it deserves
