Back Of The Yards The Making Of A Local Democracy:

Back of the Yards Robert A. Slayton, 1988-04-15 Robert A Slayton's *Back of the Yards* is one of the finest accounts I have ever read on an urban working class neighborhood in twentieth century America Its focus on family politics and worklife is penetrating and its conclusions reinforce an emerging scholarly picture of ordinary people exercising unique forms of power John Bodnar author of *The Transplanted A History of Immigrants in Urban America* *Slaughterhouse* Dominic A. Pacyga, 2015-11-10 From the minute it opened on Christmas Day in 1865 it was Chicago's must see tourist attraction drawing more than half a million visitors each year Families visiting dignitaries even school groups all made trips to the South Side to tour the Union Stock Yard There they got a firsthand look at the city's industrial prowess as they witnessed cattle hogs and sheep disassembled with breathtaking efficiency At their height the kill floors employed 50 000 workers and processed six hundred animals an hour an astonishing spectacle of industrialized death *Slaughterhouse* tells the story of the Union Stock Yard chronicling the rise and fall of an industrial district that for better or worse served as the public face of Chicago for decades Dominic A Pacyga is a guide like no other he grew up in the shadow of the stockyards spent summers in their hog house and cattle yards and maintains a long standing connection with the working class neighborhoods around them Pacyga takes readers through the packinghouses as only an insider can covering the rough and toxic life inside the plants and their lasting effects on the world outside He shows how the yards shaped the surrounding neighborhoods and controlled the livelihoods of thousands of families He looks at the Union Stock Yard's political and economic power and its sometimes volatile role in the city's race and labor relations And he traces its decades of mechanized innovations which introduced millions of consumers across the country to an industrialized food system Once the pride and signature stench of a city the neighborhood is now home to Chicago's most successful green agriculture companies *Slaughterhouse* is the engrossing story of the creation and transformation of one of the most important and deadliest square miles in American history *Polish American History before 1939* Adam Walaszek, 2023-09-20 The history of private lives of the first and second generations of Polish immigrants in the United States is viewed from the perspective of migrants themselves What did the migrants do How did they behave How protagonists men women children with their own words presented their experience Their experience is compared with one of the other groups The book discusses migration processes formation of neighborhoods experiences at work daily and family lives functioning of parishes and tensions related to it and construction of people's identities and their constant reformulations Migrants created mutual aid societies which played not only economic but also ideological and political roles Experiences of immigrants children at home and at school are presented mostly in their own words and from their own perspective Cultural activities reflect constant changes of groups self identity The book also depicts the relations between the Polish migrants and members of other ethnic groups in the streets public spaces politics and within the Catholic church People lived in pluri cultural culturally diverse contexts and thus relations with the others were complex The

panorama ended in the year 1939 when after the Great Depression the group entered into a new period of transformation during the war

Transforming the City Marion Orr, 2007 A path breaking book the first to examine the evolution of community organizing in U S cities While embracing mobilization the contributors acknowledge the challenges inherent in globalization and the norms and values that shape contemporary American culture Still they reaffirm that community organizing has an important role to play as part of a broader progressive movement

Challenging the Growth Machine Barbara Ferman, 1996 A major theoretical contribution that will reshape how we think about city politics Definitely a path breaker Clarence Stone author of *Regime Politics Governing Atlanta* 1946 1988 Ferman views urban politics from the streets of the city s neighborhoods The result is a vivid picture that opens up possibilities for the revival of progressive urban policy and the flowering of democratic civic action Todd Swanstrom author of *The Crisis of Growth Politics*

A Good Place to Do Business Roger Biles, Mark H. Rose, 2022-10-28 This book looks at the politics of downtown business promotion as an urban renewal strategy from the end of World War II to the present with a focus on five case cities Philadelphia Chicago Detroit St Louis and Cleveland

Chicago Made Robert Lewis, 2009-05-15 From the lumberyards and meatpacking factories of the Southwest Side to the industrial suburbs that arose near Lake Calumet at the turn of the twentieth century manufacturing districts shaped Chicago s character and laid the groundwork for its transformation into a sprawling metropolis Approaching Chicago s story as a reflection of America s industrial history between the Civil War and World War II *Chicago Made* explores not only the well documented workings of centrally located city factories but also the overlooked suburbanization of manufacturing and its profound effect on the metropolitan landscape Robert Lewis documents how manufacturers attracted to greenfield sites on the city s outskirts began to build factory districts there with the help of an intricate network of railroad owners real estate developers financiers and wholesalers These immense networks of social ties organizational memberships and financial relationships were ultimately more consequential Lewis demonstrates than any individual achievement Beyond simply giving Chicago businesses competitive advantages they transformed the economic geography of the region Tracing these transformations across seventy five years *Chicago Made* establishes a broad new foundation for our understanding of urban industrial America

Working in the Yards Paul Louis Street, 1993

Chicago Neighborhoods and Suburbs Ann Durkin Keating, 2008-11-15 Which neighborhood It s one of the first questions you re asked when you move to Chicago And the answer you give be it Bucktown Bronzeville or Bridgeport can give your inquisitor a good idea of who you are especially in a metropolis with so many different neighborhoods and suburbs to choose from Many of us know little of the neighborhoods beyond those where we work play and live This is particularly true in Chicagoland a region that spans over 4 400 square miles and is home to more than 9 5 million residents Now historian Ann Durkin Keating s compact guide drawn largely from the bestselling *Encyclopedia of Chicago* brings the history of Chicago neighborhoods to life Back cover

Working the Boundaries Nicholas De Genova, 2005-10-18 An ethnographic study of transnational migration racialization

labor subordination and citizenship in Chicago's Mexican migrant community **Social Citizenship for Whom?** Thomas Faist, 1995 The book connects a detailed empirical analysis of quantitative and qualitative data in an interpretation of social citizenship and theories of immigrant incorporation in labour markets that consider public policies and labour market structures on the one hand and the resources of the immigrants themselves such as schooling job networks and immigrant entrepreneurship on the other hand It concludes with an innovative proposal of a guaranteed income for school leavers
