Publisher Essential Values-Based Practice K. W. M. Fulford, Ed Peile, Heidi Carroll, 2012-03-01 This book will help clinicians acquire and develop the processes and skills of values based practice The aim of most patient clinician consultations is to improve health outcomes Often they succeed and patients are satisfied and empowered However some

consultations are unsatisfactory and result in failure to improve health outcomes and dissatisfaction on the part of patients carers or clinicians When consultations fail to achieve the desired results the cause is not usually a failure of evidence based practice Today s clinicians are trained in evidence based medicine educated updated and appraised The most likely reason why things go wrong is a failure of values based practice not ascertaining the relevant values perspectives and acting on them in a coherent and purposeful manner If you rehearse and practise the elements of values based practice detailed in this book you will find your consultations more personally rewarding and your patients are likely to derive more benefit

Care including several new chapters to support the delivery of palliative care to diverse populations. These chapters explore care for patients living with pulmonary, cardiac, liver, renal, and hematologic diseases, as well as chapters on health inequalities, LGBTQ communities, rural communities, and care of those with substance use disorders and serious mental illness. Each chapter is rich with tables and figures, case examples, and a strong evidence-based practice to support the highest quality of care. The book offers a valuable and practical resource for students and clinicians across all settings of care. The content is relevant for specialty hospice agencies and palliative care programs, as well as generalist knowledge for schools of nursing, oncology, critical care, and pediatrics. Developed with the intention of emphasizing the need to extend palliative care beyond the specialty to be integrated in all settings and by all clinicians caring for the seriously ill, this new edition will continue to serve as the cornerstone of palliative care education. **BMJ**, 1998 *Yonsei Medical Journal*, 1988

Care at the Close of Life: Evidence and Experience Stephen J. McPhee, Margaret A. Winker, Michael W. Rabow, Steven Z. Pantilat, Amy J. Markowitz, 2010-12-31. The world's leading source of evidence-based guidance on caring for patients at the end of life. Featuring the content of the world's most widely read medical journal plus completely new, never before published content. Perfect for medical students, trainees, and clinicians alike. Market Audience: Medical students 18,000 yr US 250,000 global NP and PA students 25,000 yr US 50,000 global IM and FP residents 30,000 US 60,000 global IM and FP clinicians 140,000 US 300,000 global Palliative medicine 3,000 US Oncology 20,000 US 60,000 global Social workers. About the Book: In the tradition of the *User's Guides to the Medical Literature* and *The Rational Clinical Examination*, *JAMA Care at the Close of Life* is based on a widely successful series of articles appearing over the course of the last ten years in *JAMA*, the world's most widely read medical journal. The series is directed by Stephen McPhee, a leading authority of end-of-life care and the chief editor of our market-leading *Current Medical Diagnosis and Treatment* text. The articles in the series cover fundamental topics and challenges in caring for patients who have been given a terminal diagnosis. Featuring a strong focus on evidence-based medicine and organized by clinical cases, the articles are widely read by faculty, medical students, and clinicians who frankly have not been given a solid educational experience on this very important medical issue. The book will be physically modeled after *The Rational Clinical Examination* in a full-color format that highlights the clinical cases. It will be well-suited for use as an required or recommended textbook for medical, PA, and NO students and as a clinical reference text for trainees and practicing physicians and nurses. Key Selling Features: Based on highly regarded content from the world's most widely read medical journal. All content is completely updated and extensive new, never before published content has been added. Case-based and evidence-based so it's a perfect fit for the way medical students and residents like to learn. Focuses on practical, real-world issues for primary care physicians and avoids esoteric issues of interest only to specialists in palliative care. Full-color format modeled after the highly regarded *Rational Clinical Examination*. Includes multimedia materials available online: Power Point slides for teaching and video interviews with patients in end-of-life care so that faculty and

students get supplemental resources for learning the art and science of care at the end of life Evidence based guidance from the world s leading medical journal on a critical topic that has been neglected in medical education and training until recently Author Profile JAMA is the world s most widely read medical journal and has a reputation for excellence in evidence based medicine Stephen McPhee has high visibility on account of his editorship of CMDT and for his driving role in enhancing end of life care in medical education and training programs He is Professor of Medicine UCSF School of Medicine San Francisco CA [Society for Neuroscience Abstracts](#) Society for Neuroscience.
