Big Medicine Charlie Nicks, 2005-11 Big Medicine is an intellectually rich and engaging historical epic detailing the early development of the West from 1850 to 1893 This

enthraling historical novel is set on the present day Flathead Indian Reservation in Western Montana's magnificent Mission Valley. This is the story of trappers, traders, tribes, cattle barons, copper kings, and timber czars, and the political, military, and personal struggles that eventually settled the fabled land of Montana. They came from far and wide into a wild and untamed wilderness, risking all they had in hope of finding a better life, each of them hoping to fulfill their own personal vision. Some did, most did not, but all of their stories dress the captivating pages of *Big Medicine*. Ten Degrees Backward Ellen Thorneycroft Fowler, 1915 Backward Glances Richard Rowe, 1874 **Backward Glance** Robyn Carr, 2016-02-15 Available on its own for the first time, a second chance romance from the #1 bestselling author of the Virgin River books, now a Netflix original series. Leigh Brackon is back home to look after her ailing mother. But she suspects maternal meddling when she finds her old flame John McElroy knee-deep in landscaping in her mom's backyard. Leigh and John's summer affair five years ago ended badly, and they're both leery of relationships after their own failed marriages. But John has always been drawn to Leigh, even though the handyman doubts he's good enough for the brilliant scientist and her twin boys. And Leigh has a secret that could change everything. Could they possibly have a real chance this time around? With a little help from the neighborhood matchmakers, they might see that it isn't too late to find a way forward together. RT Book Reviews *Backward Glances* Maril Wrigg, 2006-03-01 *Backward Glances* is the story of a hypnotherapist who is not a believer in reincarnation, who is confronted suddenly and unexpectedly by a small boy regressing spontaneously to a past life while he is being treated. How he comes to terms with this and how it helps him solve the boy's problems and also untangle his own mixed-up love life is part of the plot of this novel. *Ten Degrees Backward* Ellen Thorneycroft Fowler, 2020-07-27. Reproduction of the original *Ten Degrees Backward* by Ellen Thorneycroft Fowler.

Climbing Backward Out of Caves John R. Harris, 2015-03-17. The first draft of this rational case on behalf of religious faith was written in spring of 2010. Though much revised, the book still comprises three parts offering complementary perspectives. *Why Science Cannot Be the Final Word* logically demonstrates that the empirical approach, what we commonly call science, cannot possibly render conclusive answers to questions about the nature of ultimate reality. It relies heavily upon Immanuel Kant's antinomies of pure reason. *Reasons to Be Suspicious of Faith* presents some of the emotional responses frequently voiced by non-believers. In the absence of conclusive empirical evidence and logical proof, we are left with feelings, some of which are quite poignant. Though these emotions deserve respect when they are genuine, as opposed to derisive or exhibitionist, all eventually undercut themselves in hopeless contradiction. Finally, *Reasons to Be Inclined to Have Faith* argues

that our sentimental orientation as human beings becomes most coherent and is pointed in the most productive direction if we assume certain spiritual realities The rudiments of faith cannot be proved any more than they can be disproved Yet to assume a higher reality far from being less reasonable is much more so if we are trying to explain such cryptic inclinations as our admiration for selfless deeds and the crushing guilt we feel after committing a vile act The book seldom cites biblical passages Its intent is explicitly not to presume that the reader acknowledges the authority of any scriptural tradition but rather to place final authority in the soul s mirror a bared self examining heart and mind □□□□□□ □□□□□□,2012-10-26
