Ginny Brady Mohr Trainer Training Keith Hosman,2021-05-06 Unillustrated This book primarily concerns itself with the BUSINESS of training horses This is NOT a horse training book for the non professional Trainer Training offers one hundred situations a professional horse trainer might face Written specifically for the professional horse trainer this is a compilation of one hundred things I've learned throughout my over thirty years with horses sixteen plus of them as a pro Some are listed quickly some are placed in greater detail For each entry to paraphrase Mozart I used only as many notes as necessary and point the reader toward further resources when the subject matter threatens to creep beyond the scope of this book This is not meant to outline the only way to do things or to look at things it's simply one hundred quick pieces of advice I'd offer a compatriot were I asked Every horse trainer reading this could easily make their own list and given our myriad experiences and disparate backgrounds I doubt we'd overlap all that much And there it's that lack of overlap that gives this book both its perspective and value My background beyond horses is in marketing writing and as a long time computer geek Hence the tips contained herein focus to a great extent on those segments of our business Note also that a great deal of the info also circles around special events clinics symposiums talks etc that a pro might offer in large part because this is where so darned many weird things can happen and where much money can be made
