What if the secret to less stress is just three simple steps If you've ever woken up on a Monday already exhausted or spent Sunday night bracing yourself for the week ahead the problem isn't you The problem is stress And there's a surprisingly simple way to break free Stress is embedded in today's workplaces disguised as drive rewarded as resilience and even praised as passion But chronic stress isn't a strength it drains leaders divides teams and damages entire organizations Cheers to Monday is the joyful rebellion against stress and burnout you've been waiting for In this transformative book Amy Leneker a former C suite executive and now a trusted leadership advisor to Fortune 100 companies and public sector organizations reveals a liberating truth stress isn't the price of success it's the thief that steals it And she proves it with sharp wit refreshing honesty and laugh out loud stories You'll get the same coaching and science backed strategies Amy shares in boardrooms workshops and conferences around the world Learn how to See stress differently and finally break the cycle of exhaustion overwhelm and self doubt Sort stress into five clear categories so you know exactly what to do with each one Solve stress with a simple framework to reclaim your time energy and focus at work and beyond Celebrate the shift because reducing stress isn't just a wellness strategy it's a joy strategy and much more Cheers to Monday isn't just a book it's a movement to transform how you lead live and work It's for every leader quietly falling apart every team crushing goals while getting crushed in the process and every human who's tired of pretending they're fine Whether you're just starting your career climbing the corporate ladder or reflecting on the legacy you'll leave behind this book gives you three simple steps to finally break free from stress and reclaim the life you were meant to live *The Good Girl Left Alone! "Big Easy" Style*

Carolyn Green Haynes, 2025-09-17 The Good Girl has been left alone again in the Big Easy within her mind Her uninvited guests Daymares are coming back with a vengeance from various factors in her past Unwed Mother Wife Divorcee Retiree and now LONELINESS Come join the Good Girl on her new adventure to destroy the eggs that are being formed of loneliness to wreck life at 65 years old UGLY DAYMARES *Jesus Behaving Badly* Mark L. Strauss, 2015-09-25 The Jesus everybody likes says Mark Strauss is not the Jesus found in the Gospels He preached about hell far more than the apostle Paul He told his followers to hate their families Not one of his twelve apostles was a woman When we unpack these puzzling paradoxes and more we gain greater insight into Jesus countercultural message and mission *Letters, Power Lines, and Other Dangerous Things* Ryan Ellis, 2020-03-03 An examination of how post 9/11 security concerns have transformed the public view and governance of infrastructure After September 11 2001 infrastructures the mundane systems that undergird much of modern life were suddenly considered soft targets that required immediate security enhancements Infrastructure protection quickly became the multibillion dollar core of a new and expansive homeland security mission In this book Ryan Ellis examines how the long shadow of post 9/11 security concerns have remade and reordered infrastructure arguing that it

has been a stunning transformation Ellis describes the way workers civic groups city councils bureaucrats and others used the threat of terrorism as a political resource taking the opportunity not only to address security vulnerabilities but also to reassert a degree of public control over infrastructure Nearly two decades after September 11 the threat of terrorism remains etched into the inner workings of infrastructures through new laws regulations technologies and practices Ellis maps these changes through an examination of three U S infrastructures the postal system the freight rail network and the electric power grid He describes for example how debates about protecting the mail from anthrax and other biological hazards spiraled into larger arguments over worker rights the power of large volume mailers and the fortunes of old media in a new media world how environmental activists leveraged post 9 11 security fears over shipments of hazardous materials to take on the rail industry and the chemical lobby and how otherwise marginal federal regulators parlayed new mandatory cybersecurity standards for the electric power industry into a robust system of accountability
