importance of leveraging AI in education cannot be overstated and this conference aimed to address the pressing need for innovative practices and advancements in the field. The proceedings of AIET 2025 captured in this edited book delve into five main sections to provide a comprehensive overview of the current landscape, emerging trends, innovations, theory, applications, challenges, and opportunities in AI in education research. Throughout this book, there is a recurring theme of aligning AI advancements with the overarching goal of providing equal educational opportunities for all. The integration of AI in education holds the promise of addressing disparities and enhancing learning experiences on a global scale. In particular, the proceedings highlight the progress in Generative AI, a subfield that has shown remarkable strides in creating intelligent systems capable of generating content from text to multimedia. The implications of Generative AI in education are vast, offering innovative solutions for personalized learning, content creation, and adaptive educational resources. It serves as a comprehensive guide to the current state of AI in education, offering a roadmap for future developments that align with the principles of inclusivity, accessibility, and excellence in education.

*AI Video Income Mastery with Pictory Course (2026 Edition): From Beginner to Profitable Creator* Sean Graham, 2026-01-22

**COURSE INTRODUCTION** Welcome to AI Video Income Mastery with Pictory. This course is designed for absolute beginners who want to use AI to create professional quality videos and turn them into real world income without needing technical skills, editing experience, or on-camera confidence. If you've ever felt overwhelmed by video creation, intimidated by complex software, or unsure how AI tools actually translate into money, this course was built specifically for you.

**Who This Course Is For:** Beginners with no prior video or AI experience; Aspiring digital entrepreneurs, creators, and marketers; People who want to build income streams without showing their face; Business owners who want faster, cheaper content creation; Anyone who wants future-proof digital skills for the AI economy.

**The Problems This Course Solves:** I don't know where to start with AI tools; Video takes too much time or feels too technical; I create content but don't know how to monetize it; I'm worried AI will replace me instead of helping me; I want income skills that still matter in 3-5 years.

**The Transformation You'll Achieve:** By the end of this course, you will confidently use Pictory to create professional AI videos; Understand why your videos work, not just how to make them; Have a clear monetization path aligned with your goals; Build systems instead of relying on motivation; Position yourself for long-term success in an AI-driven economy. This is not a theory-based course. Every concept is explained step-by-step with execution in mind, so you can take action immediately, even if you're starting from zero.

**Why This Approach Works in 2026 and Beyond:** The AI economy rewards leverage, speed, and clarity, not technical mastery. Pictory represents a new class of tools that allow beginners to compete with larger teams by combining automation, storytelling, and distribution. Instead of fighting AI, this course teaches you how to collaborate with it, build trust with audiences, and create assets that compound over time. The goal is not just to help you use Pictory, but to help you think like a modern AI-powered creator and business builder.
