**Email Marketing** Tim Shek,2018-05-23 In one line email marketing is how you send advertising and promotional messages through emails Emails provide direct access to a vast market Almost every person uses an email account Hence you can use this platform for cheap fast and effective marketing It allows you to connect businesses products and services to relevant consumers And earn in the process too Email is known among marketers as a highly flexible tool You can create simple or flashy messages and send it to an extensive network with a single click Emails can contain multimedia texts videos links images and many other features The message generation depends on marketing goals Some messages require simple texts while others need links images and other flashy elements Targeted marketing is the most significant benefit of email marketing Other tools such as

television radio or even print don't provide a precise demographic to target. However, this is not the same as in email marketing. Personalized messages are created to focus on different sets of consumers or individuals. Targeted lists are generated that include past customers who present higher chances to respond to specific messages. Hence, email marketing gives a high ROI to the campaign managers. Variety of tools, techniques, and efforts are required to enhance the pace of email marketing further.

**List Building Lifestyle** Igor Kheifets (Email marketer), 2019-05-21. Imagine waking up in the morning to the sound of the ocean breeze. You've been traveling for 43 days, visiting some of the most breathtaking spots on the planet. Still in bed, you grab your smartphone from the bed stand and tap the email app on your home screen. You have 37 unread messages. 35 of these emails are notifications of sales you made while you were sleeping. You swipe back to the home screen to check your bank balance. Although you haven't had a real job in months, you're on track to make multiple 6 figures this year. For the past several weeks, you've been working a few hours a week from your laptop out of coffee shops, shopping malls, or hotel lobbies. While your friends and family are hostages to the rat race, it's as if you're living in a parallel universe where you're in full control of your time and your life choices. You've finally discovered the keys to freedom and unlimited potential. Welcome to the digital economy. This economy can break the chain between hours and dollars and offers an opportunity to earn an income disproportionately to your time investment from anywhere in the world. I wrote this book for people who want to grow their freedom while growing their income. I'm going to introduce you to a secret society of lazy millionaires who make more money before breakfast than most people make per month working full-time jobs. You're going to see how to break the link between your time and your income with permission-based email marketing. If you follow the strategies shared in this book, you'll be able to make more in the next 12 months than in the previous 12 years.
