**Academy, with which are Incorporated Literature and the English Review** ,1898 *From Psychology to Morality* John Deigh,2018-07-02 The essays in this collection belong to the tradition of naturalism in ethics The tradition goes back to the beginnings of moral philosophy in ancient Greek thought Its program is to explain moral thought and action as wholly natural phenomena Its aim in other words is to explain such thought and action without recourse to either a reality separate from that of the natural world or volitional powers that operate independently of natural forces Its greatest exponent in ancient thought was Aristotle In modern thought Hume and Freud stand out as the most influential contributors to the tradition All three thinkers made the study of human psychology fundamental to their work in ethics All three built their theories on studies of human desires and emotions and assigned to reason the role of guiding the actions that spring from our desires and emotions toward ends that promise self fulfillment and away from ends that are self destructive The collection s essays draw inspiration from their ideas Its twelve principal essays are arranged to follow the lead of Aristotle s and Hume s ethics The first three survey and examine general theories of emotion and motivation The next two focus on emotions that are central to human sociability and that contemporary Anglo American philosophers discuss under the rubric of reactive attitudes Turning to distinctively cognitive powers necessary for moral thought and action the sixth and seventh essays discuss the role of empathy in moral judgment and defend Bernard Williams s controversial account of practical reason The final five essays use the studies in moral psychology of the previous chapters to treat questions in ethics and social philosophy The treatment of these questions exemplifies the implementation of a naturalist program in these disciplines **Children's Catalog** H.W. its illegitimacy Otherwise one can hardly explain the rich variety of arguments against the custom in rabbinic and patristic literature In this novel and penetrating study Koskenniemi reviews the evidence for the practice from Graeco Roman Jewish and Christian sources and then in the major part of the book examines the rejection of the custom by Jewish authors like Philo and Josephus and by Christian writers such as Clement Justin Tertullian Origen Chrysostom and Augustine many of whom adopted the arguments of their Jewish counterparts Literary News ,1899 **Women Workers** National Union of Women Workers of Great Britain and Ireland,1909 **Bookseller** ,1871 Vols for 1871 76 1913 14 include an extra number The Christmas bookseller separately paged and not included in the consecutive numbering of the regular series
