Babywise II:

On Becoming Baby Wise, Book Two Gary Ezzo, Robert Bucknam, 2012-02-01 It's reality check time. You're at least four months into your tour of parenting and the complexities of child training are starting to multiply. While your baby is growing physically, his mind is adapting with ever-increasing awareness to new sights, sounds, sensations, and relationships. He can now interact with his material universe with greater attentiveness. Watch out: big changes are coming to his world and yours. Preserving the order and structure that brought security to your baby's day, peaceful sleep in your baby's nights, and stability in your home is still the priority, but now it must be viewed through a new developmental lens. For example, feeding time is more than a biological response initiated by a baby's sucking reflex. For the five-month-old, meal times become a complex and conscious interaction between him and his parents. Food and drink preference and need, likes and dislikes, must do's and won't do's.

Babywise II Gary Ezzo, Robert Bucknam, 1994-01-01 *For Our Own Good: the Politics of Parenting in an Ailing Society* Erica Etelson, 2010-06-23 *For Our Own Good* examines the psycho-social and political repercussions of prevailing approaches to child-rearing. Learn why warm and nurturing parents produce secure, altruistic children who go on to form progressive political beliefs, while the children of punitive, authoritarian parents are bound by fear and shame to support right-wing causes and candidates. If you've ever wondered how big a role parenting plays in shaping personality and the political and cultural values of the broader society, this book is a must-read.
