Back To Reality Social Experience And Cultural Studies:

Back to Reality? Angela McRobbie, 1997 From rap to rave from designer menswear to Marie Claire from rock to sex tourism each essay in this collection tackles issues of ideology bodies power and gender in contemporary popular culture

Research Practice for Cultural Studies Ann Gray, 2003 How is culture lived? What are the best ways of investigating cultural life? This book offers practical guidance for researching cultural studies

Routledge Handbook of Physical Cultural Studies Michael Silk, David Andrews, Holly Thorpe, 2017-02-10 Physical cultural studies PCS is a dynamic and rapidly developing field of study. This handbook offers the first definitive account of the state of the art in PCS showcasing the latest research and methodological approaches. It examines the boundaries, preoccupations, theories and politics of PCS drawing on transdisciplinary expertise from areas as diverse as sport studies, sociology, history, cultural studies, performance studies and anthropology. Featuring chapters written by world leading scholars, this handbook examines the most important themes and issues within PCS exploring the active body through the lens of class, age, gender, sexuality, race, ethnicity, disability, medicine, religion, space and culture. Each chapter provides an overview of the state of knowledge in a particular subject area while also considering possibilities for developing future research. Representing a landmark contribution to physical cultural studies and allied fields, the Routledge Handbook of Physical Cultural Studies is an essential text for any undergraduate or postgraduate course on physical culture, sports studies, leisure studies, the sociology of sport, the body or sport and social theory

Sports Coaching Research Anthony Bush, 2012 This volume raises critical questions about the explanatory framework guiding sports coaching research and presents a new conceptualisation for research in the field. The dominant or legitimate forms of coaching knowledge are identified and a new vision of the field, one which is more socially and culturally responsive, emerges

British Fashion Design Angela McRobbie, 2003-09-02 British Fashion Design explores the tensions between fashion as art form and the demands of a ruthlessly commercial industry. Based on interviews and research conducted over a number of years, Angela McRobbie charts the flow of art school fashion graduates into the industry, their attempts to reconcile training with practice and their precarious position between the twin supports of the education system and the commercial sector. Stressing the social context of cultural production, McRobbie focuses on British fashion and its graduate designers as products of youth street culture and analyses how designers from diverse backgrounds have created a labour market for themselves, remodelling enterprise culture to suit their own careers

The Commercialisation of Sport Trevor Slack, 2004 Sport has become increasingly commercialised and there are many examples of close links that have developed between sport and business. This collection examines five of them in a global context

Class, Culture and Social Change John Kirk, 2007-10-11 Class, Culture and Social Change challenges the notion of the death of the working class. The author examines a number of key issues for working class studies: the idea of the death of class, the importance of working class writing, the significance of place and space for understanding working class identity

and the centrality of work in working class lives Drawing on the work of Raymond Williams Valentin Volosinov Mikhail Bakhtin and others the book seeks to revive ways for thinking about working class identity and experience **Environment & Planning** ,2000 The Gendered Newsroom Louise North,2008 The Gendered Newsroom is a vivid exploration of the gendered production of news and in particular the experiences of women in the Australian print news media The book engages with the question of how gender shapes newsroom culture and in so doing is concerned with production practices and cultural processes It considers the dilemmas constraints negotiations and compromises which shape journalists day to day routines It probes specific questions about gender in asking what is journalism and what is a journalist How is newsroom culture embodied How do female journalists experience newsroom culture How has global industry change impacted on the workplace and what does this mean for journalists How does feminism get played out in the newsroom And what is the relationship of newsroom culture to the content of the news The author s astute empirical research provides a distinctive account of how Australian print news media journalists experience newsroom culture The 17 in depth interviews with journalists ranging in age and industry experience reveal a complex culture coming to terms with dramatic industry changes

Selling Worship Pete Ward,2005 The evangelical church has undergone a significant change in culture and theology over the last thirty five years Selling Worship argues that this has been achieved through the adoption of a particular style of worship In effect the songs or rather the practice of singing and listening to the songs carry the culture and practice of the church This has come about through the contextualization of worship in the production selling and consumption of associated popular music Selling Worship tells the recent history of evangelicalism through the lives actions and economic processes of festival organizers record companies magazines and worship leaders It presents a comprehensive account of how these changes have come about and offers a multilayered pattern of interpretation to show how what we sing has changed the church The book concludes with a critical appreciation of worship and offers practical guidelines for the future **The British National Bibliography** Arthur James Wells,1998 Bodies of Knowledge Eugenia Georges,2008 Recipient of the 2006 Norman L and Roselea J Goldberg Prize for the best project in the area of medicine The author a second generation Greek American returned to Greece with her young daughter to do fieldwork over the course of a decade Focusing on Rhodes an island that blends continuity with the past and rapid social change in often unexpected ways she interviewed over a hundred women doctors and midwives about issues of reproduction The result is a detailed portrait of how a longstanding system of local gynecological and obstetrical knowledge under the control of women was rapidly displaced in the the period following World War II and how the technologically intensive biomedical model that took its place in turn assumed its own distinctive signature Bodies of Knowledge is a vivid ethnographic study of how a presumably globalizing and homogenizing process like medicalization can be reshaped as women and medical experts alike selectively accept or reject new practices and technologies Georges found for example that women in Rhodes have enthusiastically embraced some new technologies

like fetal imaging during pregnancy but rejected others like medical contraception They are also avid consumers of popular childbirth manuals This book is the recipient of the 2006 Norman L and Roselea J Goldberg Prize for the best project in the area of medicine

Global Rhetoric, Transnational Markets Susana Ilma Loza,2004 *Channeling Blackness* Darnell M. Hunt,2005 Blackness has always played a central role in the American imagination Therefore it should not be surprising that popular television a medium that grew up with the Civil Rights Movement has featured blackness as both a foil and a key narrative theme throughout its sixty year existence Ironically in modern colorblind times we are faced with a unique turn of events blackness is actually over represented in television sitcoms and dramas *Channeling Blackness Studies on Television and Race in America* presents fifteen classic and contemporary studies of the shifting complex relationship between popular television and blackness Using a variety of methodological and theoretical approaches these essays examine four key issues that have framed popular and scholarly inquiries into the nature of race on television The black white binary The power of media Distinguishing between negative and positive images The relative importance of markets versus racial motives in television Firmly establishing popular television as a central cultural forum in our society *Channeling Blackness* looks at how television has profoundly shaped and been shaped by America s ambivalent relationship with blackness It provides numerous examples of how our current interaction with television distinguishes the lived experiences of today from those of the past The book also shows how the entertainment function of television often masks its ideological purpose particularly its role in reflecting and reproducing America s racial order A useful supplement in any number of courses on race and society *Channeling Blackness* is an ideal text for advanced undergraduate and graduate courses on race and media media and society television studies television criticism communication studies and African American and ethnic studies

International Journal of Communication ,2005 **Bible, Gender and Nationalism in American Indian and Christian Right Activism** Andrea Smith,2002 *Feminism in Popular Culture* Joanne Hollows,Rachel Moseley,2006 Based on a diverse range of texts and sites including Bridget Jones African American music videos news coverage radio shows the *Scream* trilogy *Sex and the City* and hip hop the authors analyse how different meanings of feminism have been negotiated within popular culture and how popular culture has made sense of feminism *Cash from Chaos* Ian B. Leong,1999
