compelling images the paintings of Francis Bacon are among the most powerful and the most poignant to be made in the twentieth century During his sixty odd years as a painter Francis Bacon fearlessly tackled the unruly imagery of life remaining defiantly committed to giving this purposeless existence a meaning His insistence on depicting the mysteries of human experience had been rare in an age dominated by abstraction Now with the international resurgence of figurative imagery the pivotal importance of his work has become more obvious than ever before The power and magnitude of his life s work are vividly conveyed by this thorough evaluation written by Hugh Davies and Sally Yard Born in Dublin as a teenager Bacon moved to London where he worked as an interior designer and taught himself to paint Responding to influences as diverse as Michelangelo and the photographer Muybridge he has created a motion filled style uniquely his own Fascinated by the challenge of capturing what he calls the mysteries of appearance Bacon confronts us with emotional images that demand an emotional response About Abbeville s Modern Masters series With informative enjoyable texts and over 100 illustrations approximately 48 in full color this innovative series offers a fresh look at the most creative and influential artists of the postwar era The authors are highly respected art historians and critics chosen for their ability to think clearly and write well Each handsomely designed volume presents a thorough survey of the artists life and work as well as statements by the artist an illustrated chapter on technique a chronology lists of exhibitions and public collections an annotated bibliography and an index Every art lover from the casual museum goer to the serious student teacher critic or curator will be eager to collect these Modern Masters And with such a low price they can afford to collect them all
