Artists in the Audience Greg Taylor, 2018-06-05 Gone with the Wind an inspiration for the American avant garde Mickey Mouse a crucial source for the development of cutting edge intellectual and aesthetic ideas As Greg Taylor shows in this witty and provocative book the idea is not so far fetched One of the first ever studies of American film criticism Artists in the Audience shows that film critics beginning in the 1940s turned to the movies as raw material to be molded into a more radical modernism than that offered by any other contemporary artists or thinkers In doing so they offered readers a vanguard alternative that reshaped postwar American culture nonaesthetic mass culture reconceived and refashioned into rich personally relevant art by the attuned creative spectator

Defining Cult Movies Mark Jancovich, 2003-11-08 This collection concentrates on the analysis of cult movies how they are defined who defines them and the cultural politics of these definitions The definition of the cult movie relies on a sense of its distinction from the mainstream or ordinary This also raises issues about the perception of it as an oppositional form of cinema and of its strained relationships to processes of institutionalization and classification In other words cult movie fandom has often presented itself as being in opposition to the academy commercial film industries and the media more generally but has been far more dependent on these forms than it has usually been willing to admit The international roster of essayists range over the full and entertaining gamut of cult films from Dario Argento Spanish horror and Peter Jackson's New Zealand gore-fests to sexploitation kung fu and sci fi flicks
