**Liminality in Tourism** Robert S. Bristow,Ian

Jenkins,2021-09-05 Liminality is not typically associated with tourism even though it can be viewed as an intrinsic element of the social cultural experiences of tourism Liminality in Tourism Spatial and Temporal Considerations aims to build upon the tradition of liminality as expounded in social and anthropological disciplines elaborating on the theoretical principles and concepts found within certain aspects of the tourist journey and tourist product The emergence of post modern society has impelled a change in the tourist gaze towards a more experiential and adventuresome globalised experience An important aspect of the tourist phenomenon of liminality is where a transformative experience is triggered by entering a liminoid tourist space leaving the tourist permanently psychologically transformed before returning to normalised society The narrative provides a new perspective on the tourist experience with a provocative examination into the multidimensional aspects of tourism by exploring tourism within the spatial and temporal aspects of liminal landscapes Covid 19 has further changed the rubric of tourism Until the current pandemic tourism has basically been a fun experience In a post pandemic world however the tourist is now facing an unknown future which will almost certainly affect tourism liminality This book presents the reader with a wealth of examples and case studies closely illustrating the association between tourism and liminal experiences The geographical perspectives explore the more subconscious outcomes of destination and tourist product consumption The book should be a useful reader to tourism geography where the theory of liminality can be synthesized into tourist experiences The chapters in this book were originally published as a special issue of the journal Tourism Geographies

**Curation in the Age of Platform Capitalism** Panos Kompatsiaris,2024-03-05 This book employs the figure of curation

the selection arrangement and display of objects concepts and things to explore the cultures of platform capitalism Considering its rise in the global art world as an authorial meaning making activity and an organizational entrepreneurial endeavour it looks at curation as the interweaving of innovative concepts elaborate storytelling and trusted experts leaking out from galleries to hashtags Its logic encompasses diverse spheres ranging from high brow art and the fashion world to low brow experience economies and economies of authenticity from confidence cultures and relationship gurus to algorithmic spectacles More than an economy curate and be curated is a diffused imperative amidst the disorienting spread of information that digital platforms enable What to post what to wear what to eat what friends to have what music to hear what films to watch what places to visit what socks to choose and what opinion to have about serious issues like climate change military coups AI genetics space colonization and cryonics or everyday issues like football fashion and diet Drawing on critical platform theory material culture and multi sited ethnography the book examines curated worlds of coolness authenticity and inspiration including the luxury fashion brands Vetements and Balenciaga Airbnb food experiences and the figure of the life coach The book argues that the curatorial imperative endorses an aspirational class imaginary and the idea that handling self narratives is a strategic means of socialization that can assist upward mobilities as well as neoliberal narratives of well being promotion and success This book will be of key interest to academics researchers and advanced undergraduate and graduate students in the areas of cultural studies media studies communication studies curating contemporary art theory critical management studies and art history as well as to more general readers interested in new media platforms and digital culture
