Abrupt Rural:

Abrupt Rural David Dodd Lee, 2004 Poetry David Dodd Lee's *Abrupt Rural* is as exquisite as it is excruciating though in a matter of fact even understated way it surprised me with its afterburn and left me disoriented and oddly happy Claire Bateman **Multicultural/Multiracial Psychology** Manuel Ramirez III, 1998-01-01 This book presents a cognitive styles framework that explores the relationship between traditionalism modernism and cognitive styles and offers a method for multiculturalism assessment and psychotherapy that promotes the development of pluralistic perspectives and lifestyles

Political Ambition Linda L. Fowler, Robert D. McClure, 1989-01-01 How do politicians decide whether or not to run for Congress What is involved in the winnowing process that dictates months before the election the choices available to voters on the ballot Using extensive interviews and analyses of district data and opinion polls Linda Fowler and Robert McClure argue that House elections are intelligible only if we look beyond that declared candidates to those who could have run but chose not to Their book set in New York's 11th Congressional District during the elections of 1984 and 1986 assesses the personal and contextual factors that motivate some individuals to enter a House race and induce others to remain on the sidelines By uncovering the hidden obstacles that line the road to Washington Fowler and McClure reveal why only the most ambitious men and women complete the journey Fowler and McClure contend that the cost and complexity of competitive House races now demand a level of commitment and advance planning that only those with a highly focused desire to serve in Congress can sustain Despite the increased presence of national parties and PACs in congressional races they say it is the local political context that dominates the decision to run Within this setting individual candidates not party organizations develop the strategies manage the resources and define the alternatives in most House races Fowler and McClure discuss how changes in American politics such as reapportionment the redistribution of power away from Washington and the transformation of parties and interest groups affect the nation's supply of competitive office seekers And they devote special attention to the recruitment of female legislators offering insight into the continued failure of women to make significant inroads into the House of Representatives *The Industrial Diet* Anthony Winson, 2014 Provides all the evidence anyone needs to understand the problems with our current food system Marion Nestle Professor of Nutrition Food Studies and Public Health at New York University A hugely informative book stocked full of careful analysis Amy Best Associate Professor of Sociology George Mason University **Monthly Weather Review**, 1999 **Environment and Society in the Long Late Antiquity**, 2019-01-04 *Environment and Society in the Long Late Antiquity* brings together scientific archaeological and historical evidence on the interplay of social change and environmental phenomena at the end of Antiquity and the dawn of the Middle Ages covering the period ca 300-800 AD It gives a new impetus to the study of the environmental history of this crucial period of transition between two major epochs in premodern history The volume contains both systematic overviews of the previous scholarship and available data as well as a number of interdisciplinary case studies It covers a wide range of

topics including the histories of landscape climate disease and earthquakes all intertwined with social cultural economic and political developments Contributors are Daniel Abel Schaad Francesca Alba Sanchez Flavio Anselmetti Jos Antonio Lopez S ez Daniel Ariztegui Brunhilda Brushulli Yolanda Carrin Marco Alexandra Chavarr a Petra Dark Carmen Fernandez Ochoa Martin Finn Asuunta Florenzano Ralph Fyfe Didier Galop Benjamin Graham John Haldon Kyle Harper Richard Hodges Adam Izdebski Katarina Kouli Inga Labuhn Tamara Lewit Anna Maria Mercuri Alessia Masi Lucas McMahan Lee Mordechai Mario Morell n Timothy Newfield Almudena Orejas Saco del Valle Leonor Pe a Chocarro Sebastian P rez D az Eleonora Regattieri Stephen Rippon Neil Roberts Laura Sadori Abigail Sargent Gaia Sinopoli Paolo Squatriti Giovanni Stranieri Raymond van Dam Bernd Wagner Mark Whittow Penelope Wilson Jessie Woodbridge See inside the book Lewisian Turning Point in the Chinese Economy R.
