critic Clement Greenberg is often identified as central to these efforts. However, this book rereads Greenberg's account through Theodor Adorno and Maurice Merleau-Ponty in order to contend that Greenberg's criticism in fact testifies to how Abstract Expressionism opposes the ends to which it was deployed. With reference not only to the most famous artists of the movement but also female artists and artists of colour whom Greenberg himself neglected such as Joan Mitchell and Norman Lewis, it is argued that far from reinforcing the capitalist status quo, Abstract Expressionism engages corporeal and affective elements of experience dismissed or delegitimated by capitalism and promises a world that would do justice to them.

Abstract Expressionism Metropolitan Museum of Art (New York, N.Y.), Lisa Mintz Messinger, 1992. Abstract Expressionist works on paper from the permanent collection of The Metropolitan Museum of Art are presented in this volume which documents the wealth of the Museum's holdings in that area. Many of them are published here for the first time and several are recent additions to the collection. All are illustrated in full-page color reproductions that show the nuances of each work in great detail. The Abstract Expressionists are best known for their paintings and sculptures and virtually all of the many publications about these artists concentrate on those large-scale works. This unique catalogue deals exclusively with their smaller, more intimate works on paper, providing many new insights about the routes that led to the Abstract Expressionists' innovative artistic accomplishments. The nineteen artists included are William Bazotes, James Brooks, Elaine de Kooning, Willem de Kooning, Arshile Gorky, Adolph Gottlieb, Philip Guston, Gerome Kamrowski, Franz Kline, Robert Motherwell, Barnett Newman, Jackson Pollock, Richard Pousette-Dart, Theodore Roszak, Mark Rothko, Anne Ryan, David Smith, Theodoros Stamos, and Mark Tobey. Each of them is discussed in a separate essay which encompasses information about the artist's background and development, commentary about the importance of drawing in his or her oeuvre, and an analysis of each work in the selection. Also included in the essays is technical information about a number of the individual works that enhances understanding of the variety and originality of these artists' media and techniques.

Reframing Abstract Expressionism Michael Leja, 1993. In this original and wide-ranging study, Michael Leja argues that Jackson Pollock, Mark Rothko, and other abstract expressionist artists were part of a culture-wide initiative to reimagine the self.

[The Power of Art](#) Caroline Campbell, 2023-10-12. To read most histories of art, you might be forgiven for supposing that great artists are superhuman and the knowledge of different movements, periods, and styles is essential to truly appreciate art. It's time to look at art in a new way. *THE POWER OF ART* delves into the stories behind remarkable acts of creation in fifteen global cities at pivotal moments of artistic brilliance. It shows how art is an integral part of our daily lives, embedded in the very fabric of our existence. From the enduring wonders of ancient Babylon to the menacing pastel architecture of contemporary Pyongyang, eminent curator Caroline Campbell intertwines the stories of artists with the broader social, cultural, and political landscapes of their time. In each vivid episode, Campbell reveals how art, in all its forms, is a testament to humanity's inventiveness and ingenuity; it has served our fundamental needs for shelter, sustenance, spirituality, pleasure, order, and community. But it can

also evoke envy anger greed and even be used as a means of social control Spanning thousands of years of creativity THE POWER OF ART will ignite your imagination and open your eyes to the art that surrounds us whether it be a painting in a gallery a public sculpture or an everyday object with hidden beauty **The Philosophy and Politics of Abstract Expressionism, 1940-1960** Nancy Jachec,2000-06-05 Tracing the relationship between Abstract Expressionist artists and contemporary intellectuals particularly the French existentialists Nancy Jachec here offers a new interpretation of the success of America s first internationally recognized avant garde art form She argues that Abstract Expressionism was promoted by the United States government because of its radical character which was considered to appeal to a Western European populace perceived by the State Department as inclined toward Socialism Abstract Expressionism and Other Modern Works Metropolitan Museum of Art (New York, N.Y.),2007 An exhibition organized by the Metropolitan Museum of Art of the Muriel Kallis Steinberg Newman Collection which comprises sixty three modern paintings sculptures and works on paper by fifty artists The Abstract Expressionist paintings that form the heart of this collection were nearly all created in New York City Issues in Abstract Expressionism Ann Eden Gibson,1990
