Academic Freedom In Our Time:

Academic Freedom in Our Time Robert Morrison MacIver, 1967 **Academic Freedom in the Age of the University** Walter P. Metzger, 1961 Academic Freedom in America Edwin Doak Mead, 1897 *Academic Freedom in Our Time*, by Robert M. MacIver Robert Morrison MacIver, 1967 The Crisis of Our Time John Carvalho, 2014-07-14 Dr John Carvalho former Harvard academician and winner of the United States National Research Service Award is no stranger to the word crisis As a scientist scholar and statesman he has spent decades working on the front lines of biomedical and theoretical exploration global health and the worldwide human rights movement The Crisis of Our Time is the astonishing partial memoir and discourse regarding his life s career and philosophy concerning the planet s most pressing problems Written in a way accessible to everyone Carvalho beginning with his passionate poetic and provocative first chapter challenges us to discover that the disastrous external crises of our lives emanate from the unity of our conscious and subconscious experiences Indeed the great troubles afflicting humanity war infectious disease economic recession terrorism family discord psychological trauma human rights violations dilemmas that appear unsolvable actually originate when without truthful self reflection we glorify mediocrity rather than strive to excel Employing cutting edge scientific information keen historical insight extensive cultural experience and profound philosophical analysis Carvalho dissects our crises to elucidate why they perpetuate In so doing he introduces his theory of causal circular systems to reveal how causes feed off and exacerbate effects which in turn reinforce those same causes Furthering his views he explores global health the example par excellence as well as economics political history planetary climate change and the most central crisis of all Being or Nothingness the fears of the Self the dread of our mortality Ultimately this short but eye opening book creates epic meaning while using an artistic literary style that is virtually unseen in nonfiction Anyone who genuinely seeks excellence over mediocrity truth over falsity meaning over purposelessness and resolution over despair should read *Crisis* *Envisioning Public Scholarship for Our Time* Adrianna J. Kezar, Yianna Drivalas, Joseph A. Kitchen, 2023-07-03 This book proposes a new paradigm of public scholarship for our time one that shifts from the notion of the public intellectual to the model of the engaged scholar The editors premise is that the work of public scholarship should be driven by a commitment to supporting a diverse democracy and promoting equity and social justice The contributors to this volume present models that eschew the top down framing of policy to advocate for practice that drives bottom up change by arming the widest range of stakeholders especially members of marginalized communities with relevant research They demonstrate how public scholarship in higher education can increase its impact on practice and policy and compellingly argue that public scholarship should be recognized as normative practice for all scholars and indeed integrated into the curriculum of graduate courses The chapters describe multiple types of public scholarship and different strategies that move beyond informing policymakers faculty and administrators to engage publics such as students and parents media the general public and particularly groups that may

have had little or no access to research. Examples include partnering with a community agency to design a research project and disseminate results; writing for practitioner or policy venues and magazines outside the traditional academic journals; serving on boards for national groups that impact decisions related to your area of research; and the use of social media. Whether scholar, director of graduate education, or graduate student of higher education, this book opens up a new vision of how research can inform practice that promotes the public good.

Texas in Our Time William Seale, 1972 Traces the history of Texas from the arrival of the conquistadores in the sixteenth century to the present day. Academic Freedom Julia Emily Johnsen, 1925. **New Outlook**, 1954. **Revolution in Our Time: The Black Panther Party's Promise to the People** Kekla Magoon, 2021-11-08 A National Book Award Finalist A Coretta Scott King Author Award Honor Book A Michael L Printz Honor Book A Walter Dean Myers Honor Book With passion and precision Kekla Magoon relays an essential account of the Black Panthers as militant revolutionaries and as human rights advocates working to defend and protect their community. In this comprehensive, inspiring, and all too relevant history of the Black Panther Party, Kekla Magoon introduces readers to the Panthers' community activism grounded in the concept of self-defense, which taught Black Americans how to protect and support themselves in a country that treated them like second-class citizens. For too long, the Panthers' story has been a footnote to the civil rights movement rather than what it was: a revolutionary socialist movement that drew thousands of members, mostly women, and became the target of one of the most sustained repression efforts ever made by the U.S. government against its own citizens. *Revolution in Our Time* puts the Panthers in the proper context of Black American history from the first arrival of enslaved people to the Black Lives Matter movement of today. Kekla Magoon's eye-opening work invites a new generation of readers grappling with injustices in the United States to learn from the Panthers' history and courage, inspiring them to take their own place in the ongoing fight for justice.

Academic Freedom After September 11 Beshara Doumani, 2006 Essays on the challenges to academic freedom posed by post-9/11 political interventions and the growing commercialization of knowledge. Are the attacks on academic freedom after 9/11 a passing storm, or do they represent a structural shift that undermines one of the pillars of democratic societies? This book brings together some of this nation's leading scholars to analyze the challenges to academic freedom posed by post-9/11 political interventions and the market-driven commercialization of knowledge, examining these issues in light of the major transformations in the system of higher education since the Second World War, including conflicting interpretations of what constitutes academic freedom. Following an analysis of the historical significance of the post-9/11 threats to academic freedom, three strongly argued and not easily reconcilable essays by Robert Post, Judith Butler, and Philippa Strum discuss what visions of academic freedom can be defended and the best strategies for doing so. Three case studies: Kathleen J. Frydl on the loyalty oath and free speech controversies at the University of California; Amy Newhall on the tortured relationship between universities and the government as seen in language acquisition programs; and Joel Beinin on the policing of thought in the academy in relation to

the Middle East deepen our understanding of what is at stake In clear and powerful prose these essays provide a solid platform for informed classroom and public discussions on the philosophical foundations institutional practices and political dimensions of academic freedom on the threshold of the twenty first century
