Binder, Paul Bergman, 1984 Describes how facts are proved at trial, examining the principal categories of rational and psychological evidence which is the basis of trial stories. How at trial does each party tell a story bolstering its own legal position and detracting from that of its adversary? What attributes of stories tend to make them persuasive? From these attributes, the authors derive a set of investigatory objectives that generally apply regardless of the nature of the case. With objectives in place, turns to the thought processes that lawyers employ to analyze and develop evidence.

**Limited Liability Partnership** Pramod Jain, 2021-03-15 The Limited Liability Partnership were introduced in India vide the Limited Liability Partnership Act 2008. LLP has combined the flexibility of a partnership and the advantages of limited liability of a company at a low compliance cost. Limited Liability Partnership Law effective from 1st April 2009 is a new business vehicle that provides the benefits of limited liability of a company but allows its partners the flexibility of organizing their internal management on the basis of a mutually arrived agreement. The new concept of LLP is gaining strength in India. Procedures for LLP compliance have changed since 2009. Taxation of LLP has been made clear by the provisions made in the Income tax Act 1961 through the Finance No 2 Act 2009 and Finance Act 2010. An attempt has been made in this book to analyze the provisions of Limited Liability Partnership Act, Rules and its taxation, keeping in mind the practical difficulties which a business entity professional could face while adhering to the provisions contained in laws. Tables, charts and examples have been used sparingly to make the provisions understandable easily. Book would be immensely useful for Company Secretaries, Law professionals, Chartered Accountants and everyone concerned with formation, incorporation, conversion, administration.
