Chu Hsi:

The Natural Philosophy of Chu Hsi (1130-1200) Yung Sik Kim, 2000 Chu Hsi 1130 1200 exerted a lasting influence on the thought and life of the Chinese in subsequent centuries. The core of his synthesis was moral and social philosophy but it also included knowledge about the natural world. His doctrine of ke wu invest of things made him mindful of the specialized knowledge in such scientific traditions as astronomy harmonics etc. This study of Chu Hsi's thought gives a systematic account of the basic concepts of his natural philosophy. Also discusses Chu Hsi's actual knowledge about the natural world. And examines the relation between Chu Hsi and Chinese scientific traditions and compares his natural knowledge with that of the Western scientific tradition. Chu Hsi and his masters Joseph Percy Bruce, 1923 **Chu Hsi and His Masters** Joseph Percy Bruce, 1923 **The Religious Thought of Chu Hsi** Julia Ching, 2000 Recognized as one of the greatest philosophers in classical China Chu Hsi 1130 1200 is known in the West through translations of one of his many works the Chin ssu Lu. This study offers an examination of Chu Hsi's religious thought based on readings of both primary and secondary sources. **Chu Hsi** Wing-tsit Chan, 1987 **Neo-confucian Education** William T. De Bary, 1989-01-01 In the early days of the modernization of East Asia Neo Confucianism was often held responsible for the purported intellectual political and social failings of traditional societies in the nineteenth century. Today with frequent comparisons between the rapid success at modernization of many of these societies and the slowness of other underdeveloped countries Neo Confucianism has come to be seen under a very different light. Analysts now point to the common Confucian culture of China Japan Korea and overseas Chinese communities as a driving force in the East Asian peoples receptivity to new learning disciplined industriousness and capacity for both cultural and economic development. Central to this remarkable capacity for development these essays argue lies the influence of the great twelfth century thinker Chu Hsi. He has been considered responsible for providing much of the intellectual mortar that preserved the established order for centuries. However when viewed in their historical setting many of Chu's views can be seen as liberal indeed progressive. This is the first comprehensive study of Chu as an educator and of the propagation of his teachings throughout East Asia. Covering a wide spectrum of intellectual and social developments the contributors address the ways in which Neo Confucian thought and ethics were adapted to changes in Chinese society that anticipate many features and problems of modern society today. **Confucian Discourse and Chu Hsi's Ascendancy** Hoyt Cleveland Tillman, 1992-01-01 A major transformation in thought took place during the Southern Sung 1127 1279. A new version of Confucian teaching Tao hsueh Confucianism what modern scholars sometimes refer to as Neo Confucianism became state orthodoxy a privileged status which it retained until the twentieth century. Existing studies of the new Confucianism generally depict a single line of development to and from Chu Hsi 1130 1200 the greatest theoretician of the tradition. In this study of unprecedented scope however Hoyt Cleveland Tillman offers an integrated intellectual history of the development of Tao hsueh Confucianism which for the first time places Chu Hsi within the context of his contemporaries.

Tillman's methodological strategy allows a rich complex picture of the Tao hsueh movement to emerge one that is sure to transform the field of Sung Confucianism To reconstruct the evolution of the Tao hsueh group Tillman studies a number of Confucians from four distinct periods reflecting the basic diversity that existed among them His discussion is deeply grounded in political and philosophical history and in research on the social networks that joined the members of the Tao hsueh group Within this framework he provides a vivid account of the changing scope of the movement tracing its development into a fellowship and at times a political faction and demonstrating its movement from diversity to gradually increasing exclusiveness particularly under the influence of Chu Hsi Close attention is given to confrontational writings and debates within the group which covered such issues as humaneness the function of the mind uses of the Book of Changes social welfare programs teaching methods expediency and the grounds for knowledge and authority A superbly erudite work Confucian Discourse and Chu Hsi's Ascendancy is an invaluable contribution to the study of the history of Confucian thought in China BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Chu Hsi and Neo-Confucianism** Wing-tsit Chan,2020-12-31 The present anthology consists of papers presented at the International Conference of Chu Hsi held July 6 15 1982 in Honolulu The symposium convened as one of the continuing East West Philosophers Conferences and in conjunction with the seventy fifth anniversary of the University of Hawaii was the first on this Neo Confucian thinker **Chu Hsi and the "Ta Hsueh": Neo-Confucian Reflection on the Confucian Canon** Daniel K. Gardner,2020-03-17 In 1190 Chu Hsi published an edition of the Four Books which he regarded as the basic curriculum for Confucian education Of the four he recommended that the Ta hsueh be read first calling it the outline for learning This is a study of the Ta hsueh text its history prior to the Sung dynasty its new prominence in the Sung and the reasons why Chu Hsi found the text so intellectually and philosophically compelling Includes an original annotated translation of the text Meeting of Minds Irene Bloom,Joshua A. Fogel,1997 In Meeting of Minds eleven prominent scholars explore intellectual and religious interactions among diverse traditions of the East Asian world The authors consider central issues including concepts of religious authority perceptions of the relation between knowledge and action the sense of the sacred within the realm of ordinary human existence and the concern with historical experience and practicality as criteria for evaluating ideas and beliefs *Chu Hsi* Wing-tsit Chan,1989 **I Ching** Edward A. Strange Names of God Sangkeun Kim,2004 One of the most precarious and daunting tasks for sixteenth century European missionaries in the cross cultural mission frontiers was translating the name of God Deus into the local language When the Italian Jesuit Matteo Ricci 1552 1610 introduced the Chinese term Shangti as the semantic equivalent of Deus he made one of the most innovative cross cultural missionary translations Ricci s employment of Shangti was neither a simple rewording of a Chinese term nor the use of a loan word but was indeed a risk taking identification of the Christian God with the Confucian Most High Shangti *Strange Names of God* investigates the historical progress of the semantic configuration of Shangti as the divine name of the Christian God in China by focusing on Chinese intellectuals reaction to the strangely translated Chinese name of God *Dictionary of World Biography* Frank Northen Magill,Alison Aves,1998 Each volume of the Dictionary of World Biography contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history This is not a who s who Instead each entry provides an in depth essay on the life and career of the individual concerned Essays commence with a quick reference section that provides basic facts on the individual s life and achievements The extended biography places the life and works of the individual within an historical context and the summary at the end of each essay provides a synopsis of the individual s place in history All entries conclude with a fully annotated bibliography
