**Aids, Sex and the Scottish Churches** Michael S. Northcott,1993      **AIDS, Gays, and the American Catholic Church** Richard Leslie Smith,1994 Offering a balanced and penetrating analysis of how the gay community and the church have responded to AIDS and to each other Smith seeks to bridge the chasm between the gay community and the American Catholic church by proposing that the two sides reason together Both cultures offer rich resources for enabling all Americans to better confront and better understand the AIDS crisis      The Church and AIDS in Africa Amy Stephenson Patterson,2011 This book explores the role of the Christian church broadly and diversely defined as both institutions and communities of believers although the focus of the analysis is on institutional behaviors in the politics of HIV AIDS in Africa The author creates a typology of church AIDS actions no response early narrow response early broad response late narrow response and late broad response and seeks explanations for where churches fall within this typology in terms of institutional resources organizational structures relations with the state and global networks      Christianity and the State in Asia Julius Bautista,Francis Khok Gee Lim,2009-09-11 This book examines how Christians in Asia express their religion under the spectre of the nation state and processes of globalization Considering Christianity s growing prominence and the various ways Asian nation states respond to this growth this book brings into sharper analytical focus the ways in which the faith is articulated at the local regional and global level      **HIV Impact** ,2000      *Women, HIV, and the Church* Arthur J. Ammann,Julie Ponsford Holland,2012-09-24 As the world watched the biggest global epidemic in history evolve many anticipated that Christians would embrace those who were affected just as Jesus during his time embraced those who were sick and dying Mostly the Christian church stood back and observed Sometimes Christians responded with stigma and discrimination Many who sought refuge in the churches churches where they had served the sick and the poor were turned away as they now sought refuge for themselves and their children Individual authors address the critical issues related to the HIV epidemic women and the Christian church how the HIV epidemic affected so many women and children what the Old and New Testaments teach about our responsibility to the poor the needy the sick the widow and the orphan and how difficult it should be for Christians to ignore these teachings The HIV epidemic continues and millions of women and children bear a disproportionate share of the pain and suffering without a refuge Although HIV is a specific disease it serves as a paradigm for all Christians to ask what other needs they may be ignoring      **Victim Theology** Peter Mageto,2006-03-21 Rarely does a book come along with a renewed understanding on the way certain issues are treated especially the Churchs response to HIV AIDS Other books talk about the social economic issues in relation to HIV AIDS but this book goes further to show the theological basis of the churchs response With evidence from the history of the main line churches Mageto exposes the suppressed views within the mission churches on the HIV AIDS The book opens up yet another way of understanding the churchs response to HIV AIDS so far and shows new ways of looking at the pandemic in particular those who are infected

and affected Aids in the Church Linda Davis,2009-03-31 In a crisis people are sometimes confused and put their trust in man When these individuals cant answer their prayers The only name that is important is the name of Jesus He will never leave you or forsake you like man Nor will he tell another human being any of your business I guarantee you that the name of Jesus is who you want to call for when it is time to pray The Approach of Churches and Church-Related Organizations to HIV/AIDS Programmes: Based on Case Studies in Ethiopia and Southern India Andrea Schirmer-Müller,2006-07-18 Master s Thesis from the year 2005 in the subject Politics Topic Development Politics grade 1 4 University of Bremen language English abstract The Acquired Immunodeficiency Syndrome hereafter AIDS pandemic has changed many parts of the world in just a short time despite efforts aimed at controlling it Human Immunodeficiency Virus hereafter HIV AIDS is predominantly a sexually transmitted disease that causes illness and death The groups most at risk are those between 15 and 49 years often described as the sexually active who are the most reproductive people in society and the backbone of the productive forces of any country The particularities of this disease are not only the large number of victims but also the suffering of those affected AIDS is related to two deep dimensions of the human existence sexuality and death The impact of HIV AIDS is multi dimensional as the disease affects social economic political psychological cultural ethical and religious areas Additionally the connection of sexuality and death is often linked to the questions of guilt and innocence chance and causality Wherever such deep dimensions of human existence are raised religion may be called upon The questions of the why and whereto are not purely questions of medical science but often involve transcendence and therefore religion HIV AIDS and the approach of churches and church related organizations is a complex issue In many countries congregations and parishes are seen to be in the forefront of effective contributions to sexual education and prevention especially in the form of care and support programmes AIDS thus mobilizes churches as healing communities On the other hand churches are often accused of being a sleeping giant of promoting stigmatization and discrimination based on fear and prejudices of reducing issues related to AIDS to simplistic rigid sexual and moral judgements **AIDS and the African Church** Michael Czerny,2005 *Living with Hope* Ezra Chitando,2007 Addressing the need for an in depth understanding and analysis of how Churches in Africa are living with the epidemic of HIV AIDS Ezra Chitando s book insists that the church must accompany people and communities living with HIV and AIDS on their journeys of faith He argues that the church in Africa must be one with friendly feet which ministers to every need thus repenting its negative attitudes as well as the stigma and discrimination surrounding the disease As it works with and among those living with HIV it must also interrogate its theology its attitude to sexuality and its gender insensitivity and awaken to the realisation that it must become an all embracing community Chitando insists that a church with friendly feet does not pose questions about the moral standing of those with whom it is journeying African churches need friendly feet to journey with individuals and communities living with HIV and AIDS warm hearts to demonstrate compassion and anointed hands to effect healing Reflecting on these themes Living with
