**Churchill & Son** Josh Ireland, 2021-03-30 The intimate untold story of Winston Churchill's enduring yet volatile bond with his only son Randolph Ireland draws unforgettable sketches of life in the Churchill circle much like Erik Larson did in *The Splendid and the Vile* Kirkus Fascinating well researched and well written Andrew Roberts Beautifully written A triumph Damien Lewis Fascinating acute and touching Simon Sebag Montefiore We think we know Winston Churchill the bulldog grimace the ever present cigar the wit and wisdom that led Great Britain through the Second World War Yet away from the House of Commons and the Cabinet War Rooms Churchill was a loving family man who doted on his children none more so than Randolph his only boy and Winston's anointed heir to the Churchill legacy Randolph may have been born in his father's shadow but his father who had been neglected by his own parents was determined to see him go far For decades throughout Winston's climb to greatness father and son were inseparable dining with Britain's elite gossiping and swilling Champagne at high society parties holidaying on the French Riviera touring Prohibition era America Captivated by Winston's power bravery and charisma Randolph worshipped his father and Winston obsessed over his son's future But their love was complex and combustible complicated by money class and privilege shaded with ambition outsize expectations resentments and failures Deeply researched and magnificently written *Churchill Son* is a revealing and surprising portrait of one of history's most celebrated figures    [The Cambridge Companion to Winston Churchill](#) Allen Packwood, 2023-01-26 Viewed by some as the saviour of his nation and by others as a racist imperialist who was Winston Churchill really and how has he become such a controversial figure Combining the best of established scholarship with important new perspectives this Companion places Churchill's life and legacy in a broader context It highlights different aspects of his life and personality examining his core beliefs working practices key relationships and the political issues and campaigns that he helped shape and which in turn shaped him Controversial subjects such as area bombing Ireland India and Empire are addressed in full to try and explain how Churchill has become such a deeply divisive figure Through careful analysis this book presents a full and rounded picture of Winston Churchill providing much needed nuance and context to the debates about his life and legacy    [Michael Collins: The Man Who Made Ireland](#) Tim Pat Coogan, 2002-05-17 When the Irish nationalist Michael Collins signed the Anglo Irish Treaty in December 1921 he observed to Lord Birkenhead that he may have signed his own death warrant In August 1922 that prophecy came true when Collins was ambushed shot and killed by a compatriot but his vision and legacy lived on

Tim Pat Coogan's biography presents the life of a man whose idealistic vigor and determination were matched by his political realism and organizational abilities. This is the classic biography of the man who created modern Ireland. *Making History* Richard Cohen, 2022-04-19. A supremely entertaining *The New Yorker* exploration of who gets to record the world's history from Julius Caesar to William Shakespeare to Ken Burns and how their biases influence our understanding about the past. There are many stories we can spin about previous ages but which accounts get told and by whom. Is there even such a thing as objective history. In this witty, wise, and elegant *The Spectator* book, Richard Cohen reveals how professional historians and other equally significant witnesses such as the writers of the Bible, novelists, and political propagandists influence what becomes the accepted record. Cohen argues, for example, that some historians are practitioners of Bad History and twist reality to glorify themselves or their country. Scholarly, lively, quotable, up to date, and fun. Hilary Mantel, author of the bestselling Thomas Cromwell trilogy. *Making History* investigates the published works and private utterances of our greatest chroniclers to discover the agendas that informed their and our views of the world. From the origins of history writing when such an activity itself seemed revolutionary through to television and the digital age, Cohen brings captivating figures to vivid light from Thucydides and Tacitus to Voltaire and Gibbon, Winston Churchill, and Henry Louis Gates. Rich in complex truths and surprising anecdotes, the result is a revealing exploration of both the aims and art of history making, one that will lead us to rethink how we learn about our past and about ourselves. [Behold the Dark Gray Man](#) Katherine Campbell, 2021-07-27. Katharine Campbell's father, Sholto Douglas, was the hero of her childhood: an unconventional senior commander in the Royal Air Force, described as a gloriously contentious character. Following childhood abandonment and poverty, Sholto rose through the ranks of the fledgling RAF in the First World War before taking on a crucial role in the Second as head of Fighter Command and going on to serve as Military Governor in Germany in the war's devastating aftermath. But when Katharine was five years old, he began to be stolen away by strange night-time wanderings and daytime distress, including vivid flashbacks to his time signing death warrants in post-war Germany. The doctors called it dementia, but decades later Katharine started researching her father's story and realised that she had observed the undiagnosed consequences of post-traumatic stress disorder. PTSD is a hot topic today. We're aware of the front-line soldier suffering from shell shock, but what about the senior officer giving the orders who may be carrying hidden wounds accumulated over many years. We don't expect our military leaders to have PTSD, nor is it something they often recognise or acknowledge in themselves, yet this secret burden likely affects a surprising number of those making important tactical decisions. A thought-provoking insight into the damage done by military conflict. *Behold the Dark Gray Man* is the story of a daughter's search to understand the impact of war upon one of its most charismatic senior commanders. *The British Library General Catalogue of Printed Books to 1975* British Library, Jim Emmett, 1979. [D-Day, 1944](#) Theodore A. Wilson, 1994. Readers may be astonished at how much scholarly digging and the release of once-secret information have transformed the history of this campaign. At times it seems

like a whole new war New York Times Book Review Historical Studies, 1976 Includes section Reviews *The Spectator*, 1900 **Encounter** Stephen Spender, Irving Kristol, 1976 *Great Britons* John Cooper, 2002 Why do some people find lasting fame for their achievements whilst others lapse into obscurity What makes an individual truly great This work explores the lives of ten men and women who have influenced our history and examines why they continue to spark international interest and admiration Reluctant Nation David Day, 1992 Based on private diaries and confidential papers this study traces the spread of World War II across the Pacific It reinterprets standard assumptions regarding the war in Europe and the eventual involvement of the USA in World War II as well as the effect of the war in Australia
