Totemism and Exogamy - A Treatise on Certain Early Forms of Superstition and Society James George Frazer,2011 As a plain record of a curious form of society which must soon be numbered with the past the book may continue to possess an interest even when with the progress of its knowledge its errors shall have been corrected and its theories perhaps superseded by others which make a nearer approach to truth Despite having been criticised later the book at hand is an important and interesting document of its time It provided the first complete ethnographical summary of totemism and exogamy dwelling on its religious and social aspects Totemism is described as a religious and social system in which people or clans regard themselves as related to certain objects Exogamy which is often found in conjunction with totemism is represented as a system which only allows marriage outside of a specific group On the whole Frazer s work includes the origins as well as an ethnographical survey of totemism and exogamy in Australian Aboriginal tribes Sir James George Frazer was a Scottish social anthropologist who contributed mainly to the studies of mythology and comparative religion and was the first to detail the relations between myths and rituals His work Totemism and Exogamy is also frequently cited by Sigmund Freud in his own study Totem and Taboo *Storytracking* Sam D. Gill,1998 Storytracking is a work of theory and application It is both a study of history and culture and of the academic issues accompanying the interpretation and observation of other peoples Sam Gill writes about Central Australia but more importantly he writes about the business of trying to live responsibly and decisively in a postmodern world faced with irreconcilable diversity and complexity with undeniable ambiguity and uncertainty **Marriage and Worship in Early Societies** Sir James George Frazer,1986
