the Hildebrandslied primarily because the book is aimed at English speakers and the examination of major poems drawn from early English and immediately related cultures is more relevant to this audience and because a preponderance of the masterpieces of oral formulaic composition that have survived are in the West Germanic tradition In contrast to many oral formulaic investigations this study is primarily concerned with the literary quality of the materials examined It is addressed to all scholars concerned with Medieval English poetry and its roots scholars concerned with Germanic philology and oral formulaic matters and scholars concerned with literary interpretation in general Further it has considerable potential for use by students and in the classrooms

Rethinking the North American Long Poem Ridvan Askin, Julius Greve, 2024-12-15 For centuries critics poets poet scholars and philosophers have either openly proclaimed or tacitly assumed the long poem as the highest expression of literary ambition and excellence Rethinking the North American Long Poem focuses on the North American variant of this notorious form notorious because of its often forbidding and difficult character particularly with respect to the dialectics of content and form aesthetics and politics matter and genre In nine essays and a contextual introduction the editors and contributors scrutinize seminal long poems by North American writers including Walt Whitman's Song of Myself Ezra Pound's The Cantos Muriel Rukeyser's The Book of the Dead and Charles Olson's The Maximus Poems They also explore recent efforts that have redefined or reopened the case of the long poem including Rachel Blau DuPlessis's Drafts M NourbeSe Philip's Zong and Claudia Rankine's Citizen Taking the categories of form matter and experiment as frames of conceptual reference the book examines the ways in which material and immaterial aspects of literary practice and the philosophically and politically inscribed duality of experience and experiment are negotiated in and by North American long poems from the nineteenth century to the present
